8
 9 UNITED STATES DISTRICT COURT FOR THE
 EASTERN DISTRICT OF WASHINGTON

10 CYNTHIA HARVEY, individually and
 on behalf of all others similarly situated,

11 Plaintiff,

12 v.

13 CENTENE MANAGEMENT
 14 COMPANY, LLC and COORDINATED
 15 CARE CORPORATION,

16 Defendants.

NO. 2:18-cv-00012-SMJ

**AMENDED COMPLAINT –
CLASS ACTION**

DEMAND FOR JURY TRIAL

17 Plaintiff Cynthia Harvey (“Plaintiff”) bring this class action pursuant to
 18 Federal Rule of Civil Procedure 23(a), (b)(2), and (b)(3), individually and on
 19 behalf of all similarly-situated persons, who were or are Ambetter policyholders
 20 from January 11, 2012 to the present, against defendants Centene Management

1 Company, LLC (“Centene”) and Coordinated Care Corporation (“Coordinated
2 Care”) (together, “Defendants”). Plaintiff’s allegations are based on information
3 and belief, except for the allegations concerning Plaintiff’s own circumstances.

4 **I. PARTIES**

5 1. Plaintiff Cynthia Harvey is an individual residing in Spokane,
6 Washington. Ms. Harvey bought Centene’s Ambetter Health Insurance Policy,
7 Silver Metal type, from its Washington subsidiary Coordinated Care on the
8 Washington Benefit Health Exchange in December 2016. Ms. Harvey’s Ambetter
9 policy, for which she paid and continues to pay premiums, went into effect on
10 January 1, 2017.

11 2. Defendant Centene Management Company, LLC is a Wisconsin
12 corporation with its principal place of business at 7700 Forsyth Boulevard, St.
13 Louis, Missouri 63105. Centene is a wholly owned subsidiary of Centene
14 Corporation, a holding company, itself having no employees, which is the
15 corporate pinnacle of a set of wholly-owned subsidiaries who, collectively,
16 constitute one of, and hold themselves out to the public as one of, the nation’s
17 largest insurers providing coverage through the ACA and which has steadily been
18 expanding its operations around the country. Centene Management Company,
19 LLC is corporate entity through which Centene Corporation effectuates the
20 common policies and practices and conduct of its subsidiaries and through which

1 insurance is offered by the “Centene” entity across the nation. As here relevant,
2 Centene effectuates, controls and handles the operations of Defendant Coordinated
3 Care so that Coordinated Care is a shell and alter ego of Centene, and Centene and
4 Coordinate Care operate so in concert and together in a common enterprise and
5 through related activities so that the actions of one may be imputed to the other
6 and/or so that their corporate formality should be disregarded for purposes of
7 attributing their unlawful conduct to Centene. To all intents and purposes the
8 activities of Coordinated Care have been abdicated to Centene and the nature by
9 which Centene is the entity which entirely controls the activities of Coordinated
10 Care is admitted and set forth in statutory financial statement:

11 ***(w) General Administrative Expenses***

12 The Company has a management services agreement with Centene Management Company, LLC
13 (CMC). Under the agreement, the Company pays CMC a management fee based on a percentage of
14 its monthly revenue, for which CMC provides the services necessary to manage the business
operations of the Company and assumes responsibility for all associated costs. CMC assumes
responsibility for program planning and development, management information systems, financial
systems and services, claims administration, provider and enrollee services and records, case
management, care coordination, utilization and peer review, and quality assurance/quality
improvement. In addition, under the agreement the Company also pays other direct costs associated
with the business.

15 As used hereinafter “Centene” shall refer to the joint activities of Centene
16 Management Company, LLC and Coordinated Care.

17 3. Defendant Coordinated Care is an Indiana corporation with its
18 principal place of business at 1145 Broadway, Suite 300, Tacoma, Washington
19 98402. Coordinated Care is licensed to sell health insurance in the State of
20 Washington. Coordinated Care is a wholly-owned subsidiary of Centene

1 Corporation and operates as the “Centene” presence in the State of Washington,
2 including offering Ambetter insurance product. According to Centene Corporation,
3 Coordinated Care manages “our Health Benefit Exchange insurance plan:
4 Ambetter” in the State of Washington.
5 <https://www.centene.com/states/washington.html> (last accessed 1/8/18).

6 **II. JURISDICTION AND VENUE**

7 4. This Court has subject matter jurisdiction over this proposed class
8 action pursuant to 28 U.S.C. § 1332(d)(2). The amount in controversy, exclusive of
9 interest and costs, exceeds the sum or value of \$5,000,000 and at least one member
10 of the proposed class is a citizen of a state other than Washington, Minnesota, and
11 Indiana, which are Defendants’ states of citizenship.

12 5. Venue is proper in this district pursuant to 28 U.S.C. § 1391(a) and (b)
13 because a substantial part of the events or omissions giving rise to the Plaintiff’s
14 claims occurred in this judicial district. Venue is also proper under 18 U.S.C. §
15 1965(a) because the Defendants transact substantial business in this district.

16 6. This Court has authority to grant the requested declaratory relief
17 pursuant to 28 U.S.C. §§ 2201 and 2202.

18 **III. FACTUAL ALLEGATIONS**

19 **A. The “Centene” Business Model**

20 7. The “Centene” entities, as reported in the combined and consolidated

1 Centene Corporation financial statements, earned over \$40 billion in 2016, and
2 their revenues continue to increase, jumping 69% in the first quarter of 2017.

3 8. As throughout the rest of the country, in the State of Washington, the
4 Centene business model is to target low-income customers who qualify for
5 substantial government subsidies while simultaneously providing coverage well
6 below what is required by law and by its policies.

7 9. Ambetter policyholders around the nation report strikingly similar
8 experiences: After purchasing an Ambetter insurance plan, they learn that the
9 provider network Centene represented was available to Ambetter policyholders
10 was in material measure, if not largely, fictitious. Members have difficulty finding
11 – and in many cases cannot find – medical providers who will accept Ambetter
12 insurance.

13 10. Centene misrepresents the number, location, and existence of
14 purported providers by listing physicians, medical groups, and other providers –
15 some of whom have specifically asked to be removed – as participants in their
16 network and by listing nurses and other non-physicians as primary care providers.
17 Defendants have even copied entire physician directories into their purported
18 network lists for some areas, and have, in fact, listed medical students as part of
19 their primary care provider network.

20

1 11. Ambetter policyholders learn of the limitations on available providers
2 only after they commit to the insurance and are locked into the Ambetter policy.
3 Defendants’ sales materials omit to state that Centene does not adequately monitor
4 their network of providers. The Ambetter documentation also fails to disclose that
5 Centene does not consistently provide access to “medically necessary care on a
6 reasonable basis” without charging for out-of-network services.

7 12. Defendants also fail to reimburse medical providers’ legitimate
8 claims, routinely citing “insufficient diagnostic” evidence as the reason. As a result
9 of Centene failing to pay providers for legitimate claims, a large number of
10 medical providers reject Ambetter insurance, further reducing the provider network
11 available to Ambetter’s members.

12 13. Centene has been sued by medical providers (as well as shareholders)
13 for failing to fulfill their legal responsibilities, and this lawsuit seeks to compel
14 redress from Centene for its failure to comply with the law and the terms of its
15 contracts on behalf of Ambetter policyholders.

16 **B. The December 2017 Washington State Consent Order**

17 14. Further evidence of Ambetter’s wrongful and illegal actions is
18 captured by the Washington State Office of the Insurance Commissioner’s order of
19 December 12, 2017 requiring Coordinated Care to stop selling the Centene 2018
20 Ambetter plans. The Insurance Commissioner intervened after receiving over 100

1 consumer complaints regarding a lack of doctors in the Ambetter policy network
2 and other deficiencies and after doing its own investigation.

3 15. On December 15, 2017, Coordinated Care entered into a consent order
4 with the Insurance Commissioner. The order states that “[b]ased upon the number
5 of consumer complaints and information gathered by the Insurance
6 Commissioner's staff in investigating the consumer complaints, there was
7 sufficient evidence to indicate that the Company failed to monitor its network of
8 providers, failed to report its inadequate network to the Insurance Commissioner,
9 and failed to file a timely alternative access delivery request to ensure that
10 consumers receive access to healthcare providers.”

11 16. The order also states that Coordinated Care is legally required to
12 provide access to “medically necessary care on a reasonable basis” without
13 charging for out-of-network services. The Insurance Commissioner stated that the
14 order required that Defendants no longer send customers “surprise” bills, including
15 charges for out-of-network care. The consent order requires Defendants to confirm
16 that erroneous billing of customers is corrected and provides for ongoing
17 monitoring.

18 17. The Insurance Commissioner levied a \$1.5 million fine with \$1
19 million suspended pending no further violations over the next two years.
20

1 18. Following the order, Centene issued a press release stating that it was
2 in the process of addressing “known issues in [its] network.”

3 **C. The “Centene” Entities**

4 19. The “Centene” companies, together as collectively presented to the
5 public, is or has been the largest Medicaid Managed Care Organization in the
6 country. It describes itself as a “platform for government-sponsored programs”
7 serving low-income populations, including some of the nation’s most vulnerable
8 people. When the ACA Exchanges became operational in 2014, Centene expanded
9 the operations of the Centene Corporation owned entities by introducing the
10 Ambetter insurance product, developed specifically for the ACA.

11 20. The Centene coordinated entity insures more than 1 million people
12 through the ACA’s state-based health insurance exchanges. About 90% of the
13 marketplace enrollees are eligible for subsidies. The federal government pays cost-
14 sharing subsidies directly to the insurer.

15 21. Centene’s profitability in the ACA marketplace is due in large part to
16 its exploitation of the ACA subsidy program and other government support, while
17 failing to provide the minimal coverage required.

18 22. On the ACA exchanges, it is expected that a number of customers will
19 switch in and out of eligibility or will change insurance providers yearly while
20 shopping for policies. This phenomenon is known as “churn.” Consequently, every

1 year will bring Defendants new patients unfamiliar with the shoddy nature of
2 Ambetter coverage. “Our game plan was churn. That’s it,” according to Centene
3 Corporation’s CEO. In addition, some customers will not need to utilize medical
4 practitioners in any given year. These customers may unwittingly continue to
5 purchase Ambetter, discovering its inferior coverage only when they have a need
6 to obtain medical care.

7 23. Ambetter is offered in 15 states. Those states include: Arkansas,
8 Arizona, Florida, Georgia, Illinois, Indiana, Kansas, Massachusetts, Mississippi,
9 Missouri, New Hampshire, Nevada, Ohio, Texas, and Washington.

10 <https://www.ambetterhealth.com/health-plans/select-your-state.html> (last accessed
11 1/8/2018).

12 24. Ambetter “is [Centene’s] suite of health insurance product offerings
13 for the Health Insurance Marketplace.” The “family” of “Ambetter Health Plans”
14 are certified as Qualified Health Plan issuers in the Health Insurance Marketplace.”
15 <https://www.ambetterhealth.com/about-us.html> (last accessed 1/8/2018).

16 25. The day-to-day operations of the various “Centene” entities are
17 controlled by and through Centene – down to the details. For example, the
18 subsidiaries’ web sites each contain language describing Ambetter in substantially
19 the same language, and often verbatim.

1 26. On the universal Ambetter web site (as opposed to the state-specific
2 sites that each subsidiary posts), it is represented that “Our Ambetter products are
3 offered by Centene Corporation ... on a local level.”

4 <https://www.ambetterhealth.com/about-us.html> (last accessed 1/8/2018).

5 **D. The ACA’s Statutory Scheme Governing Health Insurance**

6 27. The ACA was enacted by the United States Congress in March 2010
7 for the express purpose of providing affordable health care coverage to all citizens,
8 regardless of their pre-existing health conditions or other barriers to coverage. 42

9 U.S.C. §18001, *et seq.* As part of its overhaul of health insurance, the ACA

10 enacted a series of provisions aimed at ensuring minimum levels of health care

11 coverage, termed the “Patient’s Bill of Rights.” The requirements include, among

12 other things, giving patients the right to choose a doctor, the provision of no-cost

13 preventive care, and the ending of pre-existing condition exclusions. 42 U.S.C. §§

14 300gg-1 - 300gg-19a, <https://www.cms.gov/CCIIO/Programs-and->

15 [Initiatives/Health-Insurance-Market-Reforms/Patients-Bill-of-Rights.html](https://www.cms.gov/CCIIO/Programs-and-Initiatives/Health-Insurance-Market-Reforms/Patients-Bill-of-Rights.html) (last

16 accessed 1/8/2018); *see also* 45 C.F.R. Part 147 (Department of Health and Human

17 Services implementing regulations for these rights).

18 28. Under the ACA, a Health Insurance Exchange (“HIE”), also known as
19 the Health Insurance Marketplace (“HIM”), is a platform through which plans that

20 meet ACA requirements are sold to consumers. 42 U.S.C. § 18031(b). A Qualified

1 Health Plan (“QHP”), as defined in the ACA, is a major medical health insurance
2 plan that covers all the mandatory benefits of the ACA and may be sold through a
3 state HIM. A QHP is also eligible to be purchased with cost-sharing and premium
4 tax credit subsidies.

5 29. All QHPs offered in the Marketplace must cover 10 categories of
6 “essential health benefits” with limited cost-sharing, including:

- 7 a. Ambulatory patient services (outpatient care one can get
8 without being admitted to a hospital);
- 9 b. Emergency services;
- 10 c. Hospitalization (surgery, overnight stays, etc.);
- 11 d. Pregnancy, maternity, and newborn care;
- 12 e. Mental health and substance use disorder services, including
13 behavioral health treatment;
- 14 f. Prescription drugs;
- 15 g. Rehabilitative and habilitative services and devices (services
16 and devices for people with injuries, disabilities, or chronic
17 conditions);
- 18 h. Laboratory services;
- 19 i. Preventive and wellness services and chronic disease
20 management; and

1 j. Pediatric services, including oral and vision care (excluding
2 adult dental and vision).

3 42 U.S.C. § 18022; 42 U.S.C. § 300gg-13.

4 30. These “essential health benefits” – including their limitations on “cost
5 sharing” (deductibles, coinsurance, copayments, and similar charges) – are
6 minimum requirements for all Marketplace plans. 42 U.S.C. § 18022.

7 **E. Other ACA Requirements and Prohibitions**

8 31. To help ensure that plans offered on the ACA marketplaces serve the
9 needs of enrollees, the ACA established a national standard for network adequacy.
10 42 U.S.C. § 18031(c)(1)(B); 45 C.F.R. § 147.200(a)(2)(i)(K). Marketplace plans
11 must maintain “a network that is sufficient in number and types of providers” so
12 that “all services will be accessible without unreasonable delay,” and insurers are
13 required to disclose their provider directories to the marketplace for online
14 publication. 45 C.F.R. § 156.230(b)(2). In addition, the health law requires
15 marketplace plans to include within their networks a sufficient number and
16 geographic distribution of “essential community providers” that serve
17 predominantly low-income, medically-underserved individuals. 42 U.S.C. §
18 18031(c)(1)(C); 45 C.F.R. § 156.235.

19 32. A health insurance issuer offering individual health insurance
20 coverage must also provide a current and accurate summary of benefits and

1 coverage to individuals covered under the policy upon receiving an application for
2 any health insurance policy. The required summary must provide, among other
3 things:

- 4 a. A description of the coverage, including cost sharing, for each
5 category of benefits identified by the Secretary in guidance;
- 6 b. The exceptions, reductions, and limitations of the coverage;
- 7 c. Coverage examples, in accordance with the rules of this section;
- 8 d. An internet address with a list of providers; and
- 9 e. An internet address providing information about prescription
10 drug coverage.

11 45 C.F.R. § 147.200(a)(2).

12 33. The ACA does not displace state laws that impose stricter
13 requirements on health care service plans than those imposed by the ACA, and it
14 expressly preserves state laws that offer additional consumer protections that do
15 not “prevent the application” of any ACA requirement.

16 **F. State Law Applicable to ACA Insurance Plans**

17 34. Most states – including the State of Washington – have laws
18 prohibiting deceptive marketing of insurance plans and failing to provide adequate
19 insurance benefits.

1 Washington ACA Health Plan Requirements and Prohibitions

2 35. Washington State law requires that insurers' health plan networks
3 meet additional state requirements, including providing "a comprehensive range of
4 primary, specialty, institutional, and ancillary services" that "are readily available"
5 to health plan enrollees. WAC 284-170-200(1); *see also* WAC 284-170-270. This
6 includes ensuring that each provider network includes a sufficient number of
7 certain types of medical professionals, such as women's health care practitioners
8 (RCW 48.42.100), tribal health care providers (WAC 284-170-200(9)), primary
9 care doctors (WAC 284-170-200(1), and mental health providers (WAC 284-170-
10 200(11)). Washington law also requires that insurers' plan networks maintain
11 sufficient numbers of each type of provider to meet anticipated consumer needs.
12 WAC 284-170-200(4).

13 36. In addition, members must have adequate choice among health care
14 providers, including those providers which must be included in the network by
15 law. WAC 284-170-200(2).

16 37. Washington law requires disclosure of any restrictions or limitations
17 on access to network providers and requires that the provider directory must be
18 updated at least monthly. WAC 284-170-200(8); WAC 284-170-260.

1 38. Washington law prohibits any false or deceptive advertising of health
2 insurance plans, as well as the misrepresentation of insurance policy provisions.
3 RCW 48.44.110, RCW 48.44.120, WAC 284-30-350.

4 39. The Washington Consumer Protection Act (“CPA”) also generally
5 prohibits unfair or deceptive conduct in trade or commerce. RCW 19.86.010.
6 Persons injured in their business or property have a private right of action under
7 the CPA. RCW 19.86.090.

8 **G. Defendants’ Coverage is Less than What is Marketed in its Plans**

9 40. Defendants describe Ambetter as a Qualified Health Plan as defined in
10 the ACA, which requires that the plan cover all of the ACA’s mandatory benefits.
11 Defendants specifically represent to prospective and existing customers that
12 “Ambetter Health Plans are certified as Qualified Health Plan issuers in the Health
13 Insurance Marketplace” and represent that the plan complies with the requirements
14 of the ACA. <https://www.ambetterhealth.com/about-us.html> (last accessed
15 1/8/2018).

16 41. Defendants market to prospective customers that “no matter which
17 Ambetter plan you choose, you can always count on access to high quality,
18 comprehensive care that delivers services, support and all of your Essential Health
19 Benefits.” Of the three Ambetter plans that are offered – Bronze, Silver and Gold –
20 Defendants assure potential customers that “the only difference between these

1 plans is how much premium you'll pay each month and how much you'll pay for
2 certain medical services.”

3 42. Defendants state that Ambetter provides “Complete medical coverage
4 that meets your medical needs and contains all of the Essential Health Benefits.”
5 Defendants provided details of these purported benefits and coverage in brochures
6 made available to the public on their websites. Defendants assure the public in
7 those materials that the promised coverage will be provided to customers.

8 43. Defendants also describe their “Provider Network Design” in
9 advertising Ambetter on the website they dedicate to the plan. Specifically,
10 Defendants state in their marketing material:

11 The Ambetter network includes healthcare
12 providers to deliver all of the services that the
Affordable Care Act describes as Essential Health
Benefits. These include:

13 Preventive care

14 Hospitalization coverage

15 Emergency services

16 And more (refer to your Evidence of Coverage
17 (EOC) for the full list of benefits)

18 To accomplish these goals, Ambetter contracts with
19 a full range of practitioners and providers such as:

20 Primary care doctors

1 Behavioral health practitioners
2 Specialty physicians, such as cardiologists,
3 neurologists, etc.

4 Providers, including hospitals, pharmacies, medical
5 equipment companies, etc.

6 Ambetter makes sure practitioners and providers of
7 all types are available within a certain geographic
8 mileage or driving time from each of our members'
9 homes to ensure you receive quality care in a
10 timely manner.

11 Ambetter contracts with providers who accept our
12 contract terms, meet our credentialing criteria, and
13 agree to our reimbursement terms. We regularly
14 review the provider network and make decisions
15 about which providers remain in the network and if
16 additional providers are needed, based on relevant
17 factors that could include:

18 The availability of certain types of practitioners or
19 hospitals in your area.

20 The ability of practitioners to meet our
credentialing criteria, including a valid license to
practice, applicable education and training,
appropriate work history, etc.

Assessment of facilities such as hospitals, to ensure
they are appropriately licensed and accredited.

Monitoring of the quality of care and service
provided by individual practitioners and providers,
which includes complaints from members and
patient safety concerns.

1 [https://www.ambetterhealth.com/find-a-provider/provider-network-](https://www.ambetterhealth.com/find-a-provider/provider-network-design.html)
2 [design.html](https://www.ambetterhealth.com/find-a-provider/provider-network-design.html) (last accessed 1/8/2018).

3 44. Defendants advertise that potential customers are able to use
4 Defendants' websites to see the providers they represent as being in their provider
5 network. Specifically, Defendants' websites offered, and continue to offer, a
6 feature allowing potential enrollees to search Defendants' networks of providers.
7 This feature is available to all potential Ambetter customers across the country. *See*
8 <https://providersearch.ambetterhealth.com/>) (last accessed 1/8/2018). Defendants
9 appear to have copied contact information as to various physicians from lists or
10 medical directories and listed those providers as being part of their network even
11 though those providers were not actually part of the provider network for
12 Ambetter. In some areas, Defendants have simply copied into their purported
13 network an entire physician directory. In some cases, Defendants have even listed
14 the cellular telephone number of physicians who were not in the Ambetter
15 network. In fact, Defendants have listed medical students, nurses, and other non-
16 physicians in their list of in-network primary care providers.

17 45. Defendants' provider network was and is so limited that holders of
18 Ambetter policies would have to travel long distances to see a medical provider, if
19 one legitimately within Defendants' network could be found at all.

1 46. Defendants' online brochures and other materials available to
2 prospective members further represent that members' grievances will be diligently
3 documented by Defendants and promptly addressed.

4 47. The Centers for Medicare and Medicaid Services ("CMS") conducted
5 an audit of Centene's Medicare operations from May 16, 2016 through May 27,
6 2016. CMS auditors reported that (1) Centene failed to comply with Medicare
7 requirements related to Part D formulary and benefit administration and coverage
8 determinations, appeals, and grievances, and that (2) Centene's failures were
9 systemic and adversely affected enrollees. According to CMS, the enrollees
10 experienced delayed or denied access to covered benefits, increased out-of-pocket
11 costs, and/or inadequate grievance or appeal rights. CMS Report, January 12,
12 2017. https://www.cms.gov/Medicare/Compliance-and-Audits/Part-C-and-Part-D-Compliance-and-Audits/Downloads/Centene_Corporation_CMP_1-12-17.pdf (last
13 accessed 1/8/2018).

14
15 **H. Defendants' Failure to Pay Claims, Resulting in Even Smaller
16 Networks and Lack of Benefits and Coverage**

17 48. Defendants routinely deny coverage for medical services, claiming
18 that the provider did not show sufficient diagnostic evidence that the care was
19 necessary. Centene and a subsidiary were sued in 2016 by a group of providers
20 who alleged that Defendants wrongfully denied claims of their members that were
within the scope of the members' Ambetter policies.

1 49. As a result of this practice of denying legitimate claims, many
2 providers will not accept patients insured by Ambetter, making it even more
3 difficult for Ambetter members to find in-network providers.

4 **I. Plaintiff’s and Class Members’ Experiences with Ambetter**

5 50. Plaintiff Harvey viewed the information supplied by Centene and
6 Coordinated Care through www.wahealthfinder.org in the last two months of 2016.
7 Among the information she reviewed were (1) the Summary of Benefits and
8 Coverage under the heading Ambetter from Coordinated Care Corporation:
9 Ambetter Balanced Care 10 (2017) + Vision (“Plan Summary”), (2) the
10 “Ambetter” Balanced Care 10 (2017) Plan Brochure (“Plan Brochure”); and (3) the
11 “Ambetter” Preventive Services Guide, effective January 1, 2017, which identifies
12 Centene Corporation on the cover as the copyright holder. After reviewing this
13 information, Ms. Harvey bought Centene’s Ambetter Health Insurance Policy,
14 Silver Metal type, from its Washington subsidiary Coordinated Care on the
15 Washington Benefit Health Exchange in December 2016.

16 51. The Plan Brochure represents that Ambetter “provides quality
17 healthcare solutions” with coverage options that make it “easier to take charge of
18 your health.” It further states that, “By choosing Ambetter from Coordinated Care,
19 you’ll receive affordable, quality healthcare coverage. . . .” The Plan Brochure
20 also represents that the “Providers listed in the Ambetter from Coordinated Care

1 online directory are in-network.” The Plan Brochure and Plan Summary also
2 purport to describe generally what services are covered and what are not, but are
3 misleading by failing to indicate how few in-network providers would be available.
4 For example, they indicate that emergency room services would be covered,
5 although out-of-network charges might be incurred for out-of-network providers
6 working in an otherwise covered emergency room. They fail to disclose, however,
7 that in the Spokane area, during 2017, they had zero emergency room physicians
8 who were in-network, causing Plaintiff Harvey to incur a charge of \$1,544 for
9 treatment received from an emergency room doctor.

10 52. Centene and Coordinated Care also failed to cover individual
11 elements of Ms. Harvey’s medical visits because they were not in-network. For
12 example, Plaintiff Harvey received services from a covered doctor on March 17,
13 2017, but then received a bill from the lab used by that doctor. Similarly, Plaintiff
14 Harvey, who has been identified as high risk for colorectal cancer, was advised by
15 Coordinated Care to get a colonoscopy. Colonoscopies are within the preventive
16 services required by the ACA to be included in coverage and are identified as
17 covered in Centene’s Preventive Care brochure. When she got the colonoscopy
18 from a covered doctor, however, her claims for two of the technicians involved in
19 the procedure were denied.

20

1 53. Plaintiff Harvey appealed each of the many denials of her claims, and
2 included the Washington State Office of Insurance Commissioner, Consumer
3 Advocacy, in her submissions. In many cases, her appeal was ultimately
4 successful, indicating that the initial denial of her claims was invalid. However, she
5 was forced to complete the process of appeal, while providers were sending her
6 bills and deeming her a credit risk. Coordinated Care also made it difficult to
7 contact the company or obtain information, such as the status of appeals regarding
8 invalid denials. Typically, Coordinated Care would respond to her messages by
9 asking her to call, which she did, only to find it would take hours to get through the
10 phone system to find someone who could help her try to find providers (which
11 were generally not available) or to accept an appeal of a wrongly denied claim. At
12 the end of 2017, Plaintiff Harvey's policy automatically renewed for 2018 without
13 any action on her part, and she had paid and continues to pay monthly premiums
14 on this policy.

15 54. Other members of the Class have had similar experiences. One
16 Superior Health/Ambetter member attempted to schedule an appointment with
17 someone listed as a primary care physician on the provider network, only to find
18 out that the person was a nurse practitioner. Another person listed as a physician
19 provider was a medical student at University of North Texas Medical School.
20 Defendants may have copied a roster of medical students and posted it on their

1 website on their provider network page. According to a number of physicians the
2 member spoke to, providers refuse to accept Ambetter because Superior Health
3 routinely refuses to pay legitimate claims, often citing insufficient diagnostics as
4 the reason for the refusal even when all relevant diagnostic information had been
5 obtained and indicated the reasonableness of the treatment provided.

6 55. Another Ambetter enrollee is a 60-year-old widow with medical
7 issues. The federal government pays a monthly subsidy of \$662 for her Ambetter
8 insurance. Despite this substantial government subsidy, she has consistently
9 encountered difficulties with finding a medical provider willing to accept the
10 Ambetter plan. She has to drive extraordinary distances to find a provider within
11 Ambetter's network, an ordeal which can be insurmountable given her medical
12 condition.

13 **J. CLASS ACTION ALLEGATIONS**

14 56. Plaintiff brings this lawsuit as a class action on behalf of herself and
15 all others similarly situated pursuant to Fed. R. Civ. P. 23(a), (b)(2) and (b)(3) and
16 LR 23(i) on behalf of the following class: All persons in the state of Washington
17 who were insured by Defendants' Ambetter insurance product which was
18 purchased through an ACA HIE from January 11, 2012 to the present (the
19 "Washington State Class"). Excluded from the Washington State Class are
20 Defendants, Defendants' employees, Defendants' subsidiaries, the Judge(s) to

1 which this case is assigned and the immediate family of the Judge(s) to which this
2 case is assigned.

3 57. This Class Definitions may be amended or modified as warranted by
4 discovery or other activities in the case hereafter.

5 58. Numerosity: The Class encompasses thousands of individuals, which
6 is so numerous that joinder of all members is impracticable. The Class is
7 ascertainable from Defendants' records.

8 59. Typicality: Plaintiff's claims are typical of the claims of the Class,
9 because Plaintiff and the members of the Class each purchased an Ambetter policy
10 and were similarly damaged thereby. The members of the Class have also been
11 damaged as a result of Defendants' erroneous billing practices. Plaintiff and the
12 other members of the Class also share the same interest in preventing Defendants
13 from engaging in such activity in the future.

14 60. Adequacy: Plaintiff will fairly and adequately protect the interests of
15 the Class. Plaintiff's interests are coincident with, and not antagonistic to, those of
16 the other members of the Class. Plaintiff has retained counsel competent and
17 experienced in class and consumer litigation and have no conflict of interest with
18 other members of the Class in the maintenance of this class action. Plaintiff has no
19 relationship with Defendants except as a policyholder who entered into contracts
20 with Defendants. Plaintiff will vigorously pursue the claims of the Class.

1 61. Existence and Predominance of Common Questions of Fact and Law:

2 This case presents many common questions of law and fact that will predominate
3 over any questions affecting members of the Class only as individuals. The
4 damages sustained by Plaintiff and the Class's members flow from the common
5 nucleus of operative facts surrounding Defendants' misconduct. The common
6 questions include, but are not limited to, the following:

- 7 a. Whether Defendants' failure to provide the coverage required
8 by the ACA violated Washington law as set forth herein;
- 9 b. Whether Defendants breached their contracts with Plaintiff and
10 the Class by failing to provide the coverage promised and
11 mandated the contracts through the conduct alleged herein;
- 12 c. Whether Defendants or their agents pursued uniform policies
13 and procedures in their Ambetter policy sales, customer service,
14 and/or claims processing;
- 15 d. Whether Defendants failed to comply with the terms of the
16 Ambetter health insurance policies;
- 17 e. Whether Centene and Coordinated Care operated the latter as a
18 shell or alter ego such that the law should disregard its separate
19 corporate identities; and
- 20

1 f. Whether Plaintiff and the Class's members are entitled to
2 monetary damages or injunctive relief and/or other remedies
3 and, if so, the nature of any such relief.

4 62. Superiority: A class action is superior to other available methods for
5 the fair and efficient adjudication of this controversy because joinder of all
6 members is impracticable. Furthermore, because the damages suffered by
7 individual class members may be relatively small, the expense and burden of
8 individual litigation makes it impracticable for the members of the Class to
9 individually seek redress for the wrongs done to them. Plaintiff believes that
10 members of the Class, to the extent they are aware of their rights against
11 Defendants, would be unable to secure counsel to litigate their claims on an
12 individual basis because of the relatively limited nature of the individual damages,
13 and that a class action is the only feasible means of recovery for these individuals.
14 Even if members of the Class could afford such individual litigation, the court
15 system could not. Individual litigation would pose a high likelihood of inconsistent
16 and contradictory judgments. Further, individualized litigation would increase the
17 delay and expense to all parties and to the court system, due to the complex legal
18 and factual issues presented by this dispute. By contrast, the class action procedure
19 presents far fewer management difficulties, and provides the benefits of single
20 adjudication, economies of scale, and comprehensive supervision by a single court.

1 This action presents no difficulties in management that would preclude its
2 maintenance as a class action.

3 63. In the alternative, the Class may be certified because:

4 a. the prosecution of separate actions by the individual members
5 of the Class would create a risk of inconsistent or varying
6 adjudication with respect to individual members of the Class
7 that would establish incompatible standards of conduct for
8 Defendants;

9 b. the prosecution of separate actions by individual members of
10 the Class would create a risk of adjudications with respect to
11 them which would, as a practical matter, be dispositive of the
12 interests of the other members of the Class not parties to the
13 adjudications, or substantially impair or impede the ability to
14 protect their interests; and

15 c. Defendants have acted or refused to act on grounds generally
16 applicable to the Class, thereby making appropriate final and
17 injunctive relief with respect to the Class. In addition, Plaintiff
18 has alleged, and intend to show, that any corporate formalities
19 between the Defendants should be disregarded.

64. Plaintiff repeats and realleges the allegations set forth above, as if fully set forth here verbatim.

65. Plaintiff and the members of the Class entered into valid and binding written contracts with Defendants for the purchase of Ambetter insurance policies.

66. Defendants' policies state that, under the policy, Plaintiff and members of the Class have the "right to:" (a) "A current list of Network Providers," (b) "Adequate access to qualified Physicians and Medical Practitioners and treatment or services regardless of . . . geographic location, health condition, national origin or religion," and (c) "Access Medically Necessary urgent and Emergency Services 24 hours a day and seven days a week."

67. Defendants' policies further state that, "We and the Member shall comply with all applicable state and federal laws and regulations in performance of this Contract."

68. For the reasons alleged above, Defendants breached each of these provisions of the policies issued to Plaintiff and the members of the Class.

69. Plaintiff and the members of the Class have performed all conditions precedent to the application of the policies.

70. Plaintiff and members of the Class suffered damages as a direct and proximate result of Defendants' breach of contract, consisting of all or part of the

1 amount of the premiums they paid as well as the amounts they paid pursuant to
2 improper billings by Defendants and expenses incurred in seeking or obtaining
3 medical services.

4 71. Every contract contains an implied covenant of good faith and fair
5 dealing.

6 72. Defendants' conduct, including failing to provide accurate
7 information regarding their provider networks, failing to provide a sufficient
8 network of providers, denying valid claims, failing to pay providers for valid
9 claims, and collecting premiums while failing to provide an adequate network of
10 providers that included emergency room physicians, labs used by in network
11 providers and the like, destroyed the rights of Plaintiff and members of the Class to
12 receive the benefits of their contracts.

13 73. As a result of the foregoing, Plaintiff and the members of the Class are
14 entitled to compensatory damages in an amount to be proven at trial and to an
15 order requiring Defendants to perform their contracts as they agreed to do.

16 **COUNT II**
17 **Unfair Business Practices under RCW §§ 19.86.010, et seq.**

18 74. Plaintiff repeats and realleges the allegations set forth above, as if
19 fully set forth here verbatim.

20 75. Plaintiff and the Class members are "persons" within the meaning of
the Washington Consumer Protection Act, RCW § 19.86.010(1).

1 76. Defendants are “persons” within the meaning of the Washington
2 Consumer Protection Act, RCW 19.86.010(1), and conduct “trade” and
3 “commerce” within the meaning of the Washington Consumer Protection Act,
4 RCW 19.86.010(2).

5 77. Defendants engaged in unfair acts or practices in the conduct of their
6 business by failing to have sufficient providers within the Ambetter network as
7 represented, by failing to pay legitimate medical claims on behalf of their insured,
8 by failing to provide the benefits and coverage represented by Defendants to be
9 within the plan, by failing to address Plaintiff’s and other Class members’
10 complaints, by violating Washington state laws and regulations governing the
11 conduct and operations of health insurers, by violating the ACA, and by omitting
12 material facts regarding the benefits and coverage of Ambetter policies.

13 78. Defendants further engaged in unfair acts or practices in the conduct
14 of their business when they continued to engage in unfair practices, despite
15 numerous complaints from Class members and at least findings by both the
16 Washington State and the federal government that their systematic practices failed
17 to meet acceptable standards and harmed enrollees.

18 79. The acts and practices described above are unfair because these acts
19 or practices (1) have caused substantial financial injury to Plaintiff and Class
20 members; (2) are not outweighed by any countervailing benefits to consumers or

1 competitors; and (3) are not reasonably avoidable by consumers. The acts and
2 practices are further unfair because they offend public policy as it has been
3 established by the ACA and by Washington statutes and regulations, including
4 RCW 48.44.110 and 48.44.120 and WAC 284-170-200 and 284-170-260.

5 80. Defendants' unfair practices have occurred in their trade or business
6 and were and are capable of injuring a substantial portion of the public. As such,
7 Defendants' general course of conduct as alleged herein is injurious to the public
8 interest, and the acts complained of herein are ongoing and/or have a substantial
9 likelihood of being repeated.

10 81. As a direct and proximate result of Defendants' unfair acts or
11 practices, Plaintiff and Class members suffered injury in fact by paying insurance
12 premiums but failing to receive benefits, paying out-of-pocket costs for services
13 covered but not provided by the Ambetter plan, and spending time and money
14 locating and traveling to providers willing to accept the Ambetter plan.

15 82. Plaintiff and Class members are therefore entitled to an order
16 enjoining the conduct complained herein; actual damages to Plaintiff and the
17 members of the Class equal to: (a) a refund of the entire premium for the purchase
18 of virtually or materially worthless or less valuable insurance, or (b) in the
19 alternative, the difference in value between the value of the policy as represented
20 (the full premium prices paid) and the value of the policy as actually accepted and

1 delivered; damages incurred as a result of having to pay for services that should
2 have been covered by the insurance if the Defendants provided the services that
3 were represented and required; treble damages pursuant to RCW § 19.86.090; costs
4 of suit, including reasonable attorney's fees; and such other further damages and
5 relief as the Court may deem proper.

6 83. Plaintiff and the Class members are also entitled to additional
7 equitable relief as the Court deems appropriate, including, but not limited to,
8 disgorgement, for the benefit of the Class members, of all or part of the ill-gotten
9 profits Defendants received in connection with the policies.

10 **IV. PRAYER FOR RELIEF**

11 **WHEREFORE** Plaintiff, individually and on behalf of the members of the
12 Class, pray for relief as follows:

13 A. An order certifying this action to proceed as a class action, and
14 appointing Plaintiff and her counsel to represent the Class;

15 B. An order awarding damages to Plaintiff and the members of the Class,
16 including, where appropriate, treble damages, exemplary damages, and all other
17 monetary relief to which Plaintiff and the Class's members are entitled;

18 C. For an order awarding restitutionary disgorgement to Plaintiff and the
19 Class;

1 D. For an order awarding non-restitutionary disgorgement to Plaintiff and
2 the Class;

3 E. For a declaration that Defendants have violated applicable state and
4 federal law, including the ACA, and an order requiring Defendants to immediately
5 cease and desist their unlawful, deceptive, and obstructive practices with respect to
6 the marketing, administration, and claims processing in connection with the
7 Ambetter health insurance plan;

8 F. For an order awarding attorneys' fees and costs;

9 G. For an order awarding punitive damages where permitted pursuant to
10 governing law; and

11 H. For such other and further relief as may be just and equitable.

12 **JURY DEMAND**

13 Plaintiff demands a trial by jury on all issues so triable.
