subsection (e)(1)).

“(5) ADJUSTMENTS FOR PER CAPITA BASE PE-
RIOD.—In calculating medical assistance expendi-

divided by 2.

“(C) Rules of application.—

“(i) Budget neutrality requirement.—In determining the appropriate percentages by which to adjust States’ target per capita medical assistance expenditures for a category and fiscal year under this paragraph, the Secretary shall make such adjustments in a manner that does not result in a net increase in Federal payments under this section for such fiscal
year, and if the Secretary cannot adjust such expenditures in such a manner there shall be no adjustment under this paragraph for such fiscal year.

“(ii) ASSUMPTION REGARDING STATE EXPENDITURES.—For purposes of clause (i), in the case of a State that has its target per capita medical assistance expenditures for a 1903A enrollee category and fiscal year increased under this paragraph, the Secretary shall assume that the categorical medical assistance expenditures (as defined in subparagraph (D)(ii)) for such State, category, and fiscal year will equal such increased target medical assistance expenditures.

“(iv) DISREGARD OF ADJUSTMENT.—Any adjustment under this paragraph to target medical assistance expenditures for

“(II) the number of 1903A enrollees in such category for the State for the second fiscal year preceding such first fiscal year, increased by the percentage increase in State population from such second preceding fiscal year to such first fiscal year, based on the best available estimates of the Bureau of the Census.

“(ii) For any subsequent year.—

For any fiscal year that is not the first fiscal year in which a 1903A enrollee category is included in the applicable program...
enrollee category for a Medicaid Flexibility Program conducted by the State, the block grant amount under this paragraph for the State, year, and category shall be equal to the amount determined for the State and category for the most recent previous fiscal year in which the State conducted a Medicaid Flexibility Program that included such category, except that such amount shall be increased by the percentage increase in the consumer price index for all urban consumers (U.S. city average) from April of the second fiscal year preceding the fiscal year involved to April of the fiscal year preceding the fiscal year involved.

“(C) CAP ON TOTAL POPULATION OF 1903A ENROLLEES FOR PURPOSES OF BLOCK GRANT CALCULATION.—

“(i) IN GENERAL.—In calculating the amount of a block grant for the first year in which a 1903A enrollee category is included in the applicable program enrollee category for a Medicaid Flexibility Program conducted by the State under subparagraph (B)(i), the total number of

“(ii) ADJUSTED NUMBER OF BASE PERIOD ENROLLEES.—The term ‘adjusted number of base period enrollees’ means, with respect to a State and 1903A enrollee category, the number of 1903A enrollees in the enrollee category for the State for the State’s per capita base period (as determined under section 1903A(c)(4)), increased by the percentage increase, if any, in the total State population from the last April in the State’s per capita base period to April of the fiscal year preceding the fiscal year involved (determined using the best available data from the Bureau of the Census) plus 3 percentage points.

“(D) AVAILABILITY OF ROLLOVER FUNDS.—

“(i) IN GENERAL.—To the extent that the block grant amount available to a State for a fiscal year under this para-

quarter of such year equal to the Federal average medical assistance percentage (as defined in section 1903A(a)(4)) of the total amount expended under the program during such quarter as targeted health assistance, and the State is responsible for the balance of the funds to carry out such program.

“(B) STATE MAINTENANCE OF EFFORT EXPENDITURES.—For each year during which a State is conducting a Medicaid Flexibility Program, the State shall make expenditures for targeted health assistance under the program in an amount equal to the product of—

“(i) IN GENERAL.—In the case of a State conducting a Medicaid Flexibility Program that makes expenditures for tar-

than the required amount for the fiscal
year under subparagraph (B), the amount
of the block grant determined for the State
under paragraph (2) for the succeeding fis-
cal year shall be reduced by the amount by
which such expenditures are less than such
required amount.

For purposes of determining the amount of
a State block grant under paragraph (2),
any reduction made under this subpara-
graph to a State’s block grant amount in
a previous fiscal year shall be disregarded.

“(iii) Application to states that
terminate program.—In the case of a
State described in clause (i) that termi-
nates the State Medicaid Flexibility Pro-
gram under subsection (d)(2)(B) and such
termination is effective with the end of the
fiscal year in which the State fails to make
the required amount of expenditures under
subparagraph (B), the reduction amount
determined for the State and succeeding
fiscal year under clause (i) shall be treated as an overpayment under this title.

“(D) Reduction for noncompliance.—If the Secretary determines that a State conducting a Medicaid Flexibility Program is not complying with the requirements of this section, the Secretary may withhold payments, reduce payments, or recover previous payments to the State under this section as the Secretary deems appropriate.

“(E) Additional federal payments during public health emergency.—

“(i) In general.—In the case of a State and fiscal year or portion of a fiscal year for which the Secretary has excluded expenditures under section 1903A(b)(6), if the State has uncompensated targeted health assistance expenditures for the year or portion of a year, the Secretary may make an additional payment to such State equal to the Federal average medical assistance percentage (as defined in section 1903A(a)(4)) for the year or portion of a year of the amount of such uncompensated targeted health assistance expenditures, ex-

“(ii) MAXIMUM AMOUNT OF ADDITIONAL PAYMENT.—The amount determined for a State and fiscal year or portion of a fiscal year under this subparagraph shall not exceed the Federal average medical assistance percentage (as defined in section 1903A(a)(4)) for such year or portion of a year of the amount by which—

“(I) the amount of State expenditures for targeted health assistance for program enrollees in areas of the State which are subject to a declaration described in section 1903A(b)(6)(A)(i) for the year or portion of a year; exceeds

“(iii) UNCOMPENSATED TARGETED HEALTH ASSISTANCE.—In this subpara-

“(I) the total amount expended by the State under the program for targeted health assistance for the year or portion of a year; exceeds

“(II) the amount equal to the amount of the block grant (reduced, in the case of a portion of a year, to the same proportion of the full block grant amount that the portion of the year bears to the whole year) divided by the Federal average medical assistance percentage for the year or portion of a year.

“(iv) REVIEW.—If the Secretary makes a payment to a State for a fiscal year or portion of a fiscal year, the Sec-
retary shall, not later than 6 months after
the declaration described in section
1903A(b)(6)(A)(i) ceases to be in effect,
conduct an audit of the State’s targeted
health assistance expenditures for program
enrollees during the year or portion of a
year to ensure that all of the expenditures
for which the additional payment was
made were made for the purpose of ensur-
ing that the health care needs of program
enrollees in areas affected by a public
health emergency are met.

“(4) Determination and Publication of
Block Grant Amount.—Beginning in 2019 and
each year thereafter, the Secretary shall determine
for each State, regardless of whether the State is
conducting a Medicaid Flexibility Program or has
submitted an application to conduct such a program,
the amount of the block grant for the State under
paragraph (2) which would apply for the upcoming
fiscal year if the State were to conduct such a pro-
