ORDER

On January 22, 2019, defendant in the above-captioned case filed an unopposed motion to postpone the oral argument scheduled for January 29, 2019, in light of the lapse of appropriations affecting the United States Department of Justice. Defendant represents that once appropriations have been restored, it will work with plaintiff and the court to reschedule the argument. The court **GRANTS** defendant’s unopposed motion as follows:

- Proceedings are **STAYED** during the lapse in appropriations.
- The oral argument scheduled for January 29, 2019, is **CANCELLED**.
- When appropriations have been restored to the United States Department of Justice, the court will provide the parties with the dates that it is available to hear argument.

IT IS SO ORDERED.
