Defendant-Intervenors.

10 **TO DEFENDANTS, DEFENDANT-INTERVENORS, AND THEIR COUNSEL**

11 **PLEASE TAKE NOTICE** that on Thursday, August 22, 2019, at 2:00 p.m., or at such
12 time as the court may schedule, before the Honorable Haywood S. Gilliam, Jr. in Courtroom 2 of
13 the U.S. District Court for the Northern District of California, 1301 Clay Street, Oakland, CA
14 94612, Plaintiff-Intervenor State of Oregon will and does hereby move the Court under Federal
15 Rule of Civil Procedure 65 and Local Rule 7-2 to expand the scope of the preliminary injunction
16 to include Oregon and prohibiting Defendants from implementing in Oregon the interim or final
17 exemption rules creating a religious or moral exemption to the contraceptive mandate contained
18 within the Affordable Care Act (“ACA”). 83 Fed. Reg. 57,536 (Nov. 15, 2018) (religious
19 exemption) and 83 Fed. Reg. 57,592 (Nov. 15, 2018) (moral exemption).

20 Because the Rules violate the Administrative Procedure Act and will cause irreparable harm,
21 Oregon brings this motion to request that this Court expand the preliminary injunction enjoining
22 enforcement and implementation of the contraception exemption rules by Defendants Alex M. Azar,
23 in his official capacity as Secretary of the U.S. Department of Health & Human Services; U.S.
24 Department of Health and Human Services; R. Alexander Acosta, in his official capacity as Secretary
25 of the U.S. Department of Labor; U.S. Department of Labor; Steven Mnuchin, in his official capacity
26 as Secretary of the U.S. Department of the Treasury; U.S. Department of the Treasury (collectively,
27 Defendants).

28 This motion is based on this notice, the Memorandum of Points and Authorities, the
Declaration of Helene Rimberg, the Declarations of Nicole Alexander-Scott, MD, MPH, Bruce S.

TABLE OF AUTHORITIES 5

INTRODUCTION 8

LEGAL AND FACTUAL BACKGROUND 9

 I. PROVIDING CONTRACEPTIVE COVERAGE BENEFITS EVERYONE..... 9

 II. THE ACA REQUIRES THAT WOMEN’S PREVENTIVE SERVICES, INCLUDING
 CONTRACEPTIVES, BE PROVIDED 10

 III. THE 2016 REGULATORY SCHEME CARVED OUT A PROPERLY TAILORED
 EXEMPTION AND ACCOMMODATION THAT MAINTAINED WOMEN’S
 ACCESS TO EQUAL HEALTHCARE COVERAGE WHILE BALANCING
 RELIGIOUS LIBERTY..... 12

 IV. DEFENDANTS PROMULGATED IFRS THAT ALLOW EMPLOYERS TO
 DEPRIVE FEMALE EMPLOYEES EQUAL ACCESS TO HEALTHCARE
 COVERAGE..... 14

 V. THIS COURT ENJOINED THE IFRS AND THE NINTH CIRCUIT LARGELY
 AFFIRMED 15

 VI. DEFENDANTS PROMULGATED FINAL RULES WHICH WILL SUPERSEDE
 THE IFRS 16

LEGAL STANDARD..... 17

ISSUE PRESENTED..... 17

 I. OREGON IS LIKELY TO SUCCEED ON THE MERITS 17

 A. The Exemption Rules Are Invalid Under the APA Because They Are Not in
 Accordance with the Law and in Excess of Statutory Authority 18

 1. The Rules Are Contrary to the Women’s Health Amendment 18

 2. The Rules Are Contrary to Other Provisions Within the ACA..... 19

 3. The Rules Are in Excess of Statutory Jurisdiction 21

 B. The Exemption Rules Are Invalid Because Defendants Violated the APA by
 Permitting Only Post-Promulgation Comments 23

 C. The Rules Are Arbitrary and Capricious Because Defendants Failed to Provide
 an Adequate Justification for Their Reversal of Policy 24

 II. ABSENT AN INJUNCTION, OREGON WILL SUFFER IRREPARABLE HARM . 28

 III. THE BALANCE OF EQUITIES AND THE PUBLIC INTEREST FAVOR ISSUING
 AN INJUNCTION TO PRESERVE THE STATUS QUO 31

 IV. THE COURT SHOULD EXPAND THE INJUNCTION 32

CONCLUSION 33

MEMORANDUM OF POINTS AND AUTHORITIES

1
2 The interim exemption rules were subject to a nationwide injunction; however that
3 injunction was subsequently narrowed on appeal to exclude non-plaintiff states such as Oregon.
4 *California v. Azar*, 911 F3d 558, 584 (9th Cir 2018).

5 The final rules were subsequently issued on November 15, 2018. The plaintiff States
6 moved for a preliminary injunction against those rules on December 19, 2018. The State of
7 Oregon moved to intervene on January 7, 2019, during the pendency of the plaintiffs' motion for
8 preliminary injunction. However, intervention was not granted until February 1, 2019, after the
9 court had ruled on the preliminary injunction for the plaintiff States. *California v. Azar*, 351 F
10 Supp 3d 1267, 1300 (ND Cal 2019). Thus, this court's injunction does not currently cover
11 Oregon. The court's ruling on the preliminary injunction is on appeal to the Ninth Circuit, and
12 briefing is expected to be complete in May 2019.

13 While there is a nationwide injunction in place, *Pennsylvania v Trump*, 351 F Supp 3d 791
14 (ED Pa 2019), that injunction is also subject to appellate review and attack for its scope. Oral
15 arguments on that appeal are currently scheduled for May 21, 2019. Defendants and defendant-
16 interenors are arguing in that appeal that there was no standing for a nationwide injunction and
17 that the nationwide injunction is inequitable.

18 As such, Oregon is at imminent risk that the nationwide injunction could be lifted and
19 thousands of Oregonian women left without contraceptive coverage. Moreover, as a state in the
20 Ninth Circuit, it is entirely appropriate that Oregon's issues be considered in tandem with its
21 sister states in the same circuit. Accordingly, Oregon is moving this court to order that the
22 preliminary injunction also applies to Oregon, as a plaintiff-intervenor.

INTRODUCTION

23
24 A woman's access to contraceptive care—and decision whether and when to use it—is a
25 fundamental precept of her freedom and equality. The ACA and its implementing regulations
26 revolutionized women's access to preventive healthcare by guaranteeing “no cost” coverage of all
27 Food and Drug Administration (FDA)-approved contraceptive methods, sterilization, and
28 contraceptive counseling. This guarantee empowered a woman to, in consultation with her own

1 preferred medical provider, select the best contraception to meet her needs. Since 2012, over 62
 2 million women have benefited from this law, with resulting societal benefits from greater female
 3 engagement in the workforce and economic self-sufficiency. Yet the federal Contraception
 4 Exemption Rules now allow any employer or insurer to dictate which contraceptive methods, if
 5 any, a woman may access, impacting her health care choices and decisions. 83 Fed. Reg. 57536
 6 (Nov. 15, 2018); 83 Fed. Reg. 57592 (Nov. 15, 2018). The Rules thus “transform contraceptive
 7 coverage from a legal entitlement to an essentially gratuitous benefit wholly subject to [an]
 8 employer’s discretion.” Dkt. No. 105 at 25-26. Oregon brings this motion to protect the rights of
 9 Oregonian women and their families, as well as the Oregon’s public health and financial interests.

10 **LEGAL AND FACTUAL BACKGROUND**

11 **I. PROVIDING CONTRACEPTIVE COVERAGE BENEFITS EVERYONE**

12 The benefits of contraception to women—and ultimately society—are universal. Nearly
 13 two-thirds of all women use contraceptives.¹ By the age of 40, American women have used an
 14 average of three or four different methods (many of which are available only by prescription),
 15 after considering their relative effectiveness, convenience, cost, accessibility, side effects, drug
 16 interactions and hormones, the frequency of sexual conduct, perceived risk of sexually
 17 transmitted infections, the desire for control, and a host of other factors. Kost Decl. ¶¶ 14-16;
 18 Ikemoto Decl. ¶ 6; Arensmeyer Decl. ¶ 6 (“Access to contraceptive coverage promotes the
 19 financial stability of female entrepreneurs and their employees”). As explained by the American
 20 College of Obstetricians and Gynecologists (ACOG), “the benefits of contraception are widely
 21 recognized and include improved health and well-being, reduced global maternal mortality, health
 22 benefits of pregnancy spacing for maternal and child health, female engagement in the workforce,
 23 and economic self-sufficiency for women.” Hollier Decl. ¶ 5; Kost Decl. ¶¶ 18, 42, 44; *see, e.g.*,
 24 Grossman Decl. ¶ 7 (“interpregnancy intervals of less than 18 months and high rates of
 25 unintended pregnancy are associated with adverse birth outcomes”); Kish Decl. ¶ 12. Further, as a
 26 result of the ACA’s contraceptive-coverage requirement, women have saved an average of 20%

 28 ¹ *Current Contraceptive Status Among Women Aged 15-29*, Ctrs. for Disease Control and
 Prevention, NCHS Data Brief (Dec. 2018), [https://www.cdc.gov/nchs/data/databriefs/db327-
 h.pdf](https://www.cdc.gov/nchs/data/databriefs/db327-h.pdf).

1 annually in out-of-pocket expenses, including \$248 savings for IUDs and \$255 for the
 2 contraceptive pill. Grossman Decl. ¶ 9; *see also* Kost Decl. ¶ 31 (“Between fall 2012 and spring
 3 2014 (during which time the coverage guarantee went into wide effect), the proportion of
 4 privately insured women who paid nothing out of pocket for the pill increased from 15% to 67%,
 5 with similar changes for injectable contraceptives, the vaginal ring and the IUD”).

6 **II. THE ACA REQUIRES THAT WOMEN’S PREVENTIVE SERVICES,**
 7 **INCLUDING CONTRACEPTIVES, BE PROVIDED**

8 The ACA generally requires that group health insurance plans include women’s
 9 “preventive care and screenings” and those plans “shall not impose any cost sharing” on the
 10 consumer. 42 U.S.C. § 300gg-13(a)(4). In response to this Congressional directive, the U.S.
 11 Department of Health and Human Services (HHS) commissioned the nonpartisan Institute of
 12 Medicine (IOM) to assemble a diverse, expert committee to determine what should be included in
 13 “preventive care” coverage.² Following rigorous, independent, and exhaustive review of the
 14 scientific evidence, the IOM issued its expert report with a comprehensive set of
 15 recommendations for implementing women’s preventive healthcare services.³ These
 16 recommendations addressed important gaps in coverage for women, including an annual well-
 17 woman preventive care visit, counseling and screening for HIV and domestic violence, services
 18 for the early detection of reproductive cancers and sexually transmitted infections, and patient
 19 education and counseling for all women with reproductive capacity.⁴ Significantly, the IOM
 20 recommended that private health insurance plans be required to cover all FDA-approved
 21 contraceptives without cost-sharing.⁵ It considered these services essential so that women can
 22 avoid unwanted pregnancies and space their pregnancies to promote optimal birth and maternal
 23 health outcomes.⁶ The IOM also explained that removing cost barriers is important because “the

(continued...)

1 most effective contraceptive methods,” such as “long-acting, reversible contraceptive methods”
2 have “high up-front costs.”⁷

3 Following the IOM’s recommendations on coverage, Defendants promulgated regulations
4 requiring that certain employers offering group health insurance plans cover all FDA-approved
5 contraceptive methods. 45 C.F.R. § 147.130(a)(1)(iv); 29 C.F.R. § 2590.715-2713(a)(1)(iv); 26
6 C.F.R. § 54.9815-2713(a)(1)(iv). To effectuate these regulations, the Health Resources and
7 Services Administration (HRSA) issued guidelines that included a list of each type of preventive
8 service, and the frequency with which it should be offered.⁸

9 Since the ACA’s contraceptive-coverage requirement took effect in 2012, women have
10 saved \$1.4 billion annually, and to date, 62.8 million women nationwide have benefited.⁹ These
11 savings have a corresponding impact on society, including Oregon. Kost Decl. ¶¶ 32-36; Cantwell
12 Decl. ¶¶ 13-14 (“The ACA’s implementation correlates with a decrease” in enrollment in state-
13 funded programs). The ACA’s requirement decreases the number of unintended pregnancies, and
14 thereby the costs associated with those pregnancies. Rimberg Decl. ¶ 7; Kost Decl. ¶¶ 32-26.
15 Furthermore, unintended pregnancy is associated with poor birth outcomes and maternal health
16 complications, and thus, the contraceptive-coverage requirement also reduces the number of high-
17 cost births and infants born in poor health. Hollier Decl. ¶¶ 4-6 (“[u]niversal coverage of
18 contraceptives is cost effective and reduces unintended pregnancy and abortion rates” and “each
19 dollar spent on publicly funded contraceptive services saves the U.S. health care system nearly
20 \$6.”); Grossman Decl. ¶ 7; Rattay Decl. ¶¶ 7-10.

1 **III. THE 2016 REGULATORY SCHEME CARVED OUT A PROPERLY TAILORED**
2 **EXEMPTION AND ACCOMMODATION THAT MAINTAINED WOMEN’S**
3 **ACCESS TO EQUAL HEALTHCARE COVERAGE WHILE BALANCING**
4 **RELIGIOUS LIBERTY**

5 The ACA itself does not create exemptions or accommodations. But over the past six
6 years, Defendants have implemented tailored exemptions and accommodations in order to
7 reconcile the sincerely held religious beliefs of specific employers and the compelling interest in
8 access to contraception. *See* 75 Fed. Reg. 41726 (2010); 76 Fed. Reg. 46621 (2011); 77 Fed. Reg.
9 8725 (2012); 78 Fed. Reg. 39870 (2013); 79 Fed. Reg. 51092 (2014); 80 Fed. Reg. 41318 (2015).
10 The federal government carefully crafted a narrowly tailored exemption for houses of worship,
11 churches and their integrated auxiliaries, conventions, and associations of churches. *See* 76 Fed.
12 Reg. 46621 (2011); 77 Fed. Reg. 8728 (2012); 78 Fed. Reg. 8456, 8458 (2013). This allowed
13 these entities to seek an exemption from the contraceptive-coverage requirement consistent with
14 the Internal Revenue Code. *See* 45 C.F.R. § 147.131(a) (defining “religious employers”); 26
15 C.F.R. § 54.9815-2713A(a).

16 In addition to this narrow exemption, in 2013, the federal government created an
17 “accommodation” for religiously affiliated nonprofit organizations with objections to
18 contraceptive coverage. 45 C.F.R. § 147.131(b); 78 Fed. Reg. 12739871, 398892-389897 (2013).
19 Under the accommodation—a process unnecessary and inapplicable to exempt employers—a
20 nonprofit employer certified its religious objection to the federal government or to the insurer,
21 and then the insurer was responsible for providing separate contraceptive coverage for female
22 employees. 45 C.F.R. § 147.131(b) & (c)(2). Upon notification, the government worked with the
23 insurer to guarantee that women received coverage.¹⁰ This process ensured a seamless, automatic
24 mechanism for female employees and dependents to receive the statutorily entitled contraceptives
25 that their nonprofit employers did not pay for or facilitate. 45 C.F.R. § 147.131(b).¹¹ In short, the
26 accommodation process balanced the rights of female employees to equal health care coverage

27 ¹⁰The health insurer covered the contraceptive benefits and services, and, in turn, could be
28 reimbursed with a fee for providing such benefits and services. 80 Fed. Reg. 41346 (2015).

¹¹*Ctr. for Consumer Info. & Ins. Oversight, Women’s Preventive Services Coverage and Non-
Profit Religious Organizations, Ctrs. for Medicare & Medicaid Servs.*,
<https://www.cms.gov/CCIIO/Resources/Fact-Sheets-and-FAQs/womens-preven-02012013.html>.

1 while safeguarding religiously affiliated nonprofit employers' ability to opt out of providing this
2 coverage. *See* 80 Fed. Reg. 41318 (2015) (HHS regulation); 45 C.F.R. § 147.131(c)-(d); 158
3 Cong. Rec. S375 at H586 (daily ed. Feb. 8, 2012) (statement that the accommodation "represents
4 a respectful balance between religious persons and institutions and individual freedom").

5 The religious accommodation was later expanded to include certain closely held for-profit
6 organizations with religious objections to providing contraceptive care, consistent with *Burwell v.*
7 *Hobby Lobby Stores, Inc.*, 134 S. Ct. 2751 (2014); 80 Fed. Reg. at 41318 (2015); 45 C.F.R. §
8 147.131(b)(4).

9 Crucially for this case, the Supreme Court declined to hold that the accommodation
10 process violated the Religious Freedom Restoration Act of 1993 (RFRA), and instead instructed
11 that: "the parties on remand should be afforded an opportunity to arrive at an approach going
12 forward that accommodates [religious organizations'] religious exercise while *at the same time*
13 *ensuring that women covered by [religious organizations'] health plans receive full and equal*
14 *health coverage, including contraceptive coverage.*" *Zubik v. Burwell*, 136 S. Ct. 1557, 1559-60
15 (2016) (emphasis added) (internal quotation marks and citation omitted). As this Court
16 recognized, during the *Zubik* litigation, the Defendants represented to the Supreme Court that the
17 government "has a compelling interest in ensuring access to" contraceptive coverage for women.
18 Dkt. No. 105 at 1-2 (citation omitted).

19 In response to *Zubik*, Defendants published a Request for Information, seeking input on
20 whether and how the regulations could be changed to resolve the objections asserted by plaintiffs
21 in *Zubik*, while still ensuring that the affected women receive full and equal health coverage.
22 Notably, the Request did not propose a "moral" exemption and did not propose expanding the
23 religious exemption to all employers, insurers, and individuals. Upon review, the agencies
24 concluded that the accommodation complied with RFRA by protecting the interests of religious
25 objectors, while also fulfilling the agencies' statutory duty to ensure women retained access to no
26 cost contraceptive coverage.¹²

27
28 ¹² U.S. Dep't Labor, *FAQs About Affordable Care Act Implementation Part 36*, at 4-5
(Jan. 09, 2017), <https://www.dol.gov/sites/default/files/ebsa/about-ebsa/our-activities/resource-center/faqs/aca-part-36.pdf>.

1 **IV. DEFENDANTS PROMULGATED IFRS THAT ALLOW EMPLOYERS TO**
2 **DEPRIVE FEMALE EMPLOYEES EQUAL ACCESS TO HEALTHCARE**
3 **COVERAGE**

4 On October 6, 2017, Defendants promulgated sweeping new rules upending women's
5 access to contraceptive coverage in two interim final rules (IFRs), effective immediately, denying
6 the public an opportunity to comment before these drastic changes went into effect. Dkt. Nos. 24-
7 1 & 24-2. The "Religious Exemption IFR" vastly expanded the scope of the exemption to the
8 contraceptive-coverage requirement, permitting any employer (regardless of corporate structure
9 or religious affiliation), individual, or even a health insurer with religious objections to coverage
10 of all or a subset of the contraceptive requirement to exempt themselves. The "Moral Exemption
11 IFR" provided that nearly any employer can avoid providing these benefits to their employees if
12 they have a "moral" objection. Like the Religious Exemption IFR, the Moral Exemption IFR
13 extends to insurers and individuals, allowing those objectors to exempt themselves as well.

14 Significantly, under the IFRs, no employer needs to provide any accommodation to assure
15 that women receive their statutorily entitled contraceptive coverage. The employer need not
16 actually assert a religious or moral objection to the contraceptive-coverage requirement in order
17 to opt out; nor do they need to notify the federal government. Rather, they "object" by simply
18 exempting themselves from the statutory requirement—making the carefully structured
19 accommodation process entirely voluntary and resulting in female employees simply not
20 obtaining coverage *at all*. Notably, if any employer decided it has a religious or moral objection
21 to providing contraception, there is no notice to the woman, or to the federal government. The
22 only way a woman will discover that her employer has exempted itself from providing
23 contraceptives is by examining her notice of benefits and coverage; she will otherwise receive no
24 proactive notice.

25 In determining the impact of the IFRs, Defendants specifically relied on state and local
26 programs to fill in the gaps of coverage. 82 Fed. Reg. 47792, 47803 (2017) (noting that state and
27 local programs "provide free or subsidized contraceptives for low-income women" and
28 concluding that this "existing inter-governmental structure for obtaining contraceptives
significantly diminishes" the impact of the expanded exemptions).

1 **V. THIS COURT ENJOINED THE IFRS AND THE NINTH CIRCUIT LARGELY**
2 **AFFIRMED**

3 On December 21, 2017, this Court enjoined implementation of the IFRs. This Court held
4 that the plaintiff States, at a minimum, were likely to succeed on their claim that Defendants
5 violated the Administrative Procedure Act (APA) by issuing the IFRs without advance notice and
6 comment, and that absent a preliminary injunction, the States would suffer irreparable substantive
7 and procedural injuries, in addition to the equities and public interest tipping in the States' favor.
8 Dkt. No. 105 at 17-28. This Court rejected Defendants' standing arguments because the plaintiff
9 States had demonstrated they would incur economic burdens, either to cover contraceptive
10 services necessary to fill in the gaps left by the IFRs or for expenses associated with unintended
11 pregnancies. *Id.* at 12-16.

12 On December 13, 2018, the Ninth Circuit largely upheld this Court's decision. *California*
13 *v. Azar*, 911 F.3d 558 (9th Cir 2019). The Ninth Circuit held that the States have standing to sue
14 because the IFRs would "first lead to women losing employer-sponsored contraceptive coverage,
15 which [would] then result in economic harm to the states." *Id.* at 571. The Court elaborated that
16 "it is reasonably probable that women in the plaintiff states will lose some or all employer-
17 sponsored contraceptive coverage due to the IFRs." *Id.* The Court highlighted that the
18 Defendants' "own regulatory impact analysis (RIA)—which explains the anticipated costs,
19 benefits, and effects of the IFRs—estimates that between 31,700 and 120,000 women nationwide
20 will lose some coverage." *Id.* at 572. The Court also concluded that "loss of coverage [would]
21 inflict economic harm to the states." *Id.* The Court noted that the RIA estimates that the direct
22 cost of filling the coverage loss as \$18.5 or \$63.8 million per year and the rule identifies state and
23 local programs as filling that gap; thus, the RIA "assumed that state and local governments will
24 bear additional economic costs." *Id.* The Court concluded that the "declarations submitted by the
25 states further show that women losing coverage from their employers will turn to state-based
26 programs or programs reimbursed by the state." *Id.*

1 On the merits, the Ninth Circuit concluded that the States were likely to succeed on their
2 APA notice-and-comment claim. *Id.* at 576-581. The Court also concluded that the harm to the
3 States was “not speculative; it is sufficiently concrete and supported by the record.” *Id.* at 581.

4 **VI. DEFENDANTS PROMULGATED FINAL RULES WHICH WILL SUPERSEDE**
5 **THE IFRS**

6 On November 15, 2018, Defendants promulgated the final Exemption Rules which will
7 supersede the IFRs effective January 14, 2019 (Rules). 83 Fed. Reg. 57536; 83 Fed. Reg. 57592.
8 These Rules are very similar to the IFRs. *See* Federal Defs.’ Supplemental Br., Ninth Circuit No.
9 18-15144, Dkt. No. 125 at 6 (“the substance of the rules remains largely unchanged”); Little
10 Sisters’ Supplemental Br., Ninth Circuit No. 18-15144, Dkt. No. 128 at 2 (noting the final rule is
11 “substantively identical” to the IFR). However, there are two noteworthy differences.

12 First, not only do Defendants continue to acknowledge that tens of thousands of women
13 will likely lose contraceptive coverage as a result of the Rules, but, the RIA in the Rules estimates
14 that even *more* women will be harmed by the expanded exemptions. *See, e.g.*, 83 Fed. Reg. at
15 57551 n. 26, 57578. Second, the Rules suggest that women can seek out contraceptive coverage
16 through the federal Title X family planning clinics, a safety-net program designed for low-income
17 populations. 83 Fed. Reg. at 57548, 57551; 83 Fed. Reg. at 57605, 57608.¹³ Such a suggestion
18 *demonstrates* that the Rules require women to take additional steps—outside of their employer-
19 sponsored coverage—to access necessary care. This purported remedy does not erase the threat
20 inflicted by the Rules; it compounds the injury and expects states like Oregon to pick up the costs.
21 Kost Decl. ¶¶ 46-52 (explaining that publicly funded family planning programs and providers are
22 already operating under restrictive conditions, further undermining these programs ability to serve
23 those affected by the expanded exemptions); *see also* Custer Decl. ¶¶ 22-24. Moreover, the Title
24 X program is ill-equipped to replicate or replace the seamless contraceptive-coverage

25
26
27 ¹³Defendants have proposed drastic changes to the Title X program, making it even more
28 unsuitable as a stop-gap for the Rules. *See also* Second Am. Compl. ¶¶ 7, 54-55, 218-222.
Oregon is the lead plaintiff state in defending against that proposed change in the District of
Oregon case of *State of Oregon v Azar*, 6:19-cv-00317-MC. In that case, a preliminary injunction
was entered on April 29, 2019, by the Hon. Judge Michael J. McShane.

1 requirement.¹⁴ Custer Decl. ¶ 3; Kost Decl. ¶¶ 40-41; Rattay Decl. ¶ 4; Skinner Decl. ¶ 9. This
 2 will have a spill-over effect to state programs. Cantwell Decl. ¶ 18; Custer Decl. ¶ 23; Dutton
 3 Decl. ¶ 28; Nelson Decl. ¶¶ 16, 20; Pomales Decl. ¶¶ 10-11; Skinner Decl. ¶ 5; Tobias Decl. ¶ 5;
 4 Welch ¶ 10. Thus Oregon’s safety-net programs will see an increase in the number of consumers,
 5 resulting in economic harm to Oregon, as women continue to fall through the proverbial cracks in
 6 trying to seek out basic care.

7 LEGAL STANDARD

8 To obtain a preliminary injunction, the plaintiff must demonstrate that (1) it “is likely to
 9 succeed on the merits,” (2) it “is likely to suffer irreparable harm in the absence of preliminary
 10 relief,” (3) “the balance of equities tips in [its] favor,” and (4) “an injunction is in the public
 11 interest.” *Winter v. Nat. Res. Def. Council, Inc.*, 555 U.S. 7, 20 (2008). Courts evaluate these
 12 factors on a “sliding scale,” such that serious questions on the merits and a balance of hardships
 13 that tip sharply towards the plaintiff can support a preliminary injunction, so long as the plaintiff
 14 also shows a likelihood of irreparable injury and that the injunction is in the public interest. *Arc of*
 15 *Cal. v. Douglas*, 757 F.3d 975, 983 (9th Cir. 2014).

16 ISSUE PRESENTED

17 Do the Exemption Rules violate the APA and irreparably harm the State of Oregon and
 18 women, necessitating injunctive relief to maintain the status quo?

19 ARGUMENT

20 I. OREGON IS LIKELY TO SUCCEED ON THE MERITS

21 This court ruled in the preliminary injunction for plaintiff States were likely to succeed on
 22 the merits. Oregon’s position is the same as that of the plaintiff States, and so it is also likely to
 23 succeed.

24
 25
 26
 27 ¹⁴The Title X program is subject to discretionary funding. Kost Decl. ¶ 48. From 2010-2014, even
 28 as the number of women in need of publicly funded contraceptive care grew by 5%, (an
 additional 1 million women), Congress cut funding for Title X by 10%. Kost Decl. ¶ 49.

1 **A. The Exemption Rules Are Invalid Under the APA Because They Are Not in**
 2 **Accordance with the Law and in Excess of Statutory Authority**

3 The Rules must be held “unlawful and set aside” because they are “not in accordance with
 4 the law” and are “in excess of statutory jurisdiction.” 5 U.S.C. §§ 706(2)(A), 706(2)(C). Here,
 5 Congress did not delegate to Defendants the ability to promulgate rules undermining the ACA’s
 6 protection for women to access no-cost preventive services. *Michigan v. EPA*, 268 F.3d 1075,
 7 1081 (D.C. Cir. 2001) (citing *Bowen v. Georgetown Univ. Hosp.*, 488 U.S. 204, 208 (1988)).

8 **1. The Rules Are Contrary to the Women’s Health Amendment**

9 The Rules cannot be reconciled with the text and purpose of the ACA—which seeks to
 10 promote access to women’s healthcare, not limit it. *See Pennsylvania v. Trump*, 281 F. Supp. 3d
 11 553, 577-81 (E.D. Pa. 2017). The ACA’s requirement that certain group health plans cover
 12 women’s “preventive care and screenings” (42 U.S.C. § 300gg-13(a)(4)) was added by the
 13 Women’s Health Amendment—the purpose of which was ensuring that women have equal access
 14 to healthcare and are not required to pay more than men for preventive care, including
 15 contraception. *See Hobby Lobby Stores*, 134 S. Ct. at 2788 (Ginsburg, J., dissenting); 158 Cong.
 16 Rec. S375 (noting that it is the female employee’s decision, not the employer’s, whether to use
 17 birth control or access the ACA’s preventive health measures, despite the religious affiliation of
 18 her employer). The Women’s Health Amendment sought to redress the “fundamental inequity”
 19 that women were systematically charged more for preventive services than men. 155 Cong. Rec.
 20 S12027 (Dec. 1, 2009) (statement of Sen. Gillibrand).¹⁵ At that time, “more than half of women
 21 delay[ed] or avoid[ed] preventive care because of its cost.” *Id.* Supporters of the amendment
 22 expected that eradicating discriminatory barriers to preventive care—including contraceptive
 23 care—would result in substantially improved health outcomes for women. *See, e.g.*, at S12052
 24 (statement of Sen. Franken); *see also id.* at S12059 (statement of Sen. Cardin) (noting that
 25 amendment will cover “family planning services”); *id.* (statement of Sen. Feinstein) (same).

26
 27
 28 ¹⁵ *See id.* at S12051 (statement of Sen. Franken) (similar); *see also id.* at 12027 (statement of Sen. Gillibrand) (“women of child-bearing age spend 68 percent more in out-of-pocket health care costs than men”); *see id.* at S12051 (statement of Sen. Dodd) (similar).

1 During the same time, Congress rejected a competing amendment that would have
2 permitted broad moral and religious exemptions to the ACA’s coverage requirements—the same
3 moral and religious exemptions that are reflected in the IFRs and the Rules. *Hobby Lobby*, 134 S.
4 Ct. at 2775 n.30; *id.* at 2789-2790 (Ginsburg, J., dissenting); 159 Cong. Rec. S2268 (Mar. 22,
5 2013). These Rules thus contravene Congressional intent by disregarding what the Women’s
6 Health Amendment accomplished and adopting by regulation what Congress rejected.

7 While the Women’s Health Amendment delegates to HRSA the responsibility of setting
8 forth the “comprehensive guidelines,” Defendants were not provided with the authority to carve
9 out broad exemptions to exempt employers from this statutory requirement. HRSA was delegated
10 the responsibility to define *what* types of preventive services shall be included—not *who* must
11 abide by the statute. Further, Defendants may not exercise their discretion in a manner that
12 effaces the provision’s core purpose. *See Michigan v. EPA*, 135 S. Ct. 2699, 2708 (2015)
13 (Chevron deference “does not license interpretive gerrymanders under which an agency keeps
14 parts of statutory context it likes while throwing away parts it does not.”). Defendants’
15 implementation of the ACA’s directive eliminates the provision’s core purpose and is therefore
16 invalid under the APA. *See, e.g., Nw. Envtl. Def. Ctr. v. Bonneville Power Admin.*, 477 F.3d 668,
17 681-86 (9th Cir. 2007) (setting aside agency action that is contrary to governing law).

18 Moreover, the Rules cannot be reconciled with the plain language of the ACA. They are,
19 in fact, contrary to the implementing statute itself, which states that, “a group health plan and a
20 health insurance issuer offering group or individual health insurance coverage *shall*, at a
21 minimum provide coverage for and shall not impose any cost sharing requirements for . . . (4)
22 with respect to *women*, such additional preventive care and screenings . . . as provided for in
23 comprehensive guidelines supported by the Health Resources and Services Administration for
24 purposes of this paragraph.” 42 U.S.C. § 300gg-13(a)(4) (emphasis added). The statute makes
25 plain that the “preventive care” for “women” “shall” be provided. Nothing in the statute allows
26 exemptions for broad categories of employers, plan sponsors, issuers, or individuals.

27 **2. The Rules Are Contrary to Other Provisions Within the ACA**

28 First, Section 1554 of the ACA forbids the HHS Secretary from promulgating “any

1 regulation” that “creates any unreasonable barriers” to medical care *or* “impedes timely access to
2 health care services.” 42 U.S.C. § 18114, (1), (2). Here, inclusion of women’s preventive services
3 as a core part of the ACA’s essential health benefits requirement, 42 U.S.C. § 18022, was critical
4 to fulfilling Congress’s goals of ensuring complete coverage of preventive care, better
5 health outcomes for women, and an end to discrimination against women in health care. By
6 forcing women to go outside their employer-sponsored healthcare provider, the Rules are creating
7 barriers and impeding timely access to crucial care. Women may need to pay out of pocket for
8 such care, which will have a direct impact on healthcare. Kost Decl. ¶ 24 (“[e]xtensive empirical
9 evidence demonstrates what common sense would predict: eliminating costs leads to more
10 effective and continuous use of contraception”). The Rules increase the impediment to
11 contraceptive access, and that, “in turn, will increase those women’s risk of unintended pregnancy
12 and interfere with their ability to plan and space wanted pregnancies. These barriers could
13 therefore have considerable negative health, social and economic impacts for those women and
14 their families.” Kost Decl. ¶ 37; Custer Decl. ¶¶ 19-21. Defendants’ suggestion that women
15 “simply” seek out services at a Title X clinic, or through some other governmental program,
16 further demonstrates the barriers they are creating given that such clinics are already unable to
17 meet the demands of the current low-income population they were designed to serve. 83 Fed.
18 Reg. at 57548, 57551; Kost Decl. ¶¶ 48-51 (explaining the burdens of the proposed Title X
19 rule).¹⁶

20 Second, Section 1557 of the ACA states that an “individual shall not . . . be excluded from
21 participation in, be denied the benefits of, or be subjected to discrimination under, any health
22 program or activity” on the basis of sex. 42 U.S.C. § 18116; 20 U.S.C. § 1681; *see also Ferrer v.*
23 *CareFirst, Inc.*, 265 F.Supp. 3d 50, *52-54 (D.D.C. 2017) (denial of full coverage resulted in
24 women having to pay hundreds of dollars out of pocket for lactation services, violating the ACA).
25 The Rules selectively authorize denial of coverage for women’s preventive coverage only.
26 Women are forced into a Hobson’s choice: accept incomplete medical coverage unequal to that
27 received by male colleagues or forgo employer-provided or university-provided coverage and try

28 ¹⁶ See Comment Letter of California, et al., available at
<https://www.regulations.gov/document?D=HHS-OS-2018-0008-161828>.

1 to purchase out-of-pocket a comprehensive healthcare package. *Cf.* Kish Decl. ¶ 12. The Rules’
2 express authorization of employers’ exempting themselves from providing full and equal
3 coverage to their female employees directly violates Section 1557. 45 C.F.R. § 92.1

4 **3. The Rules Are in Excess of Statutory Jurisdiction**

5 Defendants, like any federal agency, “literally [have] no power to act . . . unless and until
6 Congress confers power upon it.” *La. Pub. Serv. Comm’n v. FCC*, 476 U.S. 355, 374 (1986); 5
7 U.S.C. § 706(2)(C). In determining whether Defendants exceeded their statutory authority, this
8 Court must undertake a two-step process. *American Library Ass’n v. FCC*, 406 F.3d 689, 698-99
9 (D.C. Cir. 2005). First, the Court must ascertain whether the statute “has directly spoken to the
10 precise question at issue;” if the statute is unambiguously clear, “that is the end of the matter; for
11 the court, as well as the agency, must give effect to the unambiguously expressed intent of
12 Congress.” *Chevron, U.S.A., Inc. v. Natural Res. Def. Council, Inc.*, 467 U.S. 837, 842-843
13 (1984). Second, if the statute admits of some ambiguity, then courts must determine whether the
14 agency’s interpretation is “reasonable.” *Id.* at 844. In assessing whether an agency’s interpretation
15 is “reasonable,” courts apply normal canons of statutory construction, and may therefore look not
16 only to the law’s text, but to its structure, purpose, and legislative history. *Id.* at 845. A regulation
17 is invalid when it adopts an interpretation so unreasonable that it directly conflicts with the statute
18 it purports to implement. *Ragsdale v. Wolverine World Wide, Inc.*, 535 U.S. 81, 91-92, 101-102
19 (2002) (holding agency interpretation unreasonable where it conflicts with the law’s “remedial
20 scheme” and Congress’s intent).

21 As discussed above, the Women’s Health Amendment is unambiguously clear that
22 Defendants did not have the authority under the ACA to enact the Rules. They are, in fact,
23 contrary to several provisions within the ACA, including the guarantee to women of no-cost
24 preventive care and screenings, the guarantee that access to healthcare not be blocked, and the
25 guarantee of nondiscrimination on the basis of sex.

26 Even if the Women’s Health Amendment is ambiguous, Defendants’ interpretation of the
27 ACA is unreasonable based on the ACA’s text, structure, purpose, and legislative and regulatory
28 history. In implementing the ACA Congress recognized that contraceptive coverage is a

1 necessary component of equality between men and women because it allows women to control
2 their health, education, and livelihoods. Kost Decl. ¶¶ 44-45. Denying women access to this
3 coverage denies them equal opportunity to aspire, achieve, participate in and contribute to society
4 on their individual talents and capabilities. *Id.* (2011 study found that a majority of women
5 reported that access to contraception had enabled them to take better care of their families (63%),
6 support themselves financially (56%), stay in school or complete their education (51%), or get or
7 keep a job or pursue a career (50%)); *see also* Ikemoto Decl. ¶ 6; *see also See Hobby Lobby*
8 *Stores*, 134 S. Ct. at 2785-2786 (Kennedy, J., concurring) (government has a compelling interest
9 in ensuring women equal access to healthcare coverage as their male colleagues); Kost Decl. ¶¶
10 38-45 (describing harms to women as a result of the Rules, including unintended pregnancies,
11 being unable to space and time pregnancies, and effect on the overall health of women), ¶ 42
12 (isolating contraceptive coverage in this way interferes with the ability of healthcare providers to
13 treat women holistically); ¶ 45 (“Low-income women, women of color and women aged 18-24
14 are at disproportionately high risk for unintended pregnancy, and millions of these women rely on
15 private insurance coverage—particularly following implementation of the ACA”); Tosh Decl. ¶¶
16 11-12; Grossman Decl. ¶ 6; Bates Decl. ¶¶ 3-4. As a result of these Rules, women will be forced
17 to struggle to pay for it themselves, to forgo contraceptive coverage or switch to less expensive
18 contraceptives that may be less effective for them, risking an unintended pregnancy, or to try to
19 seek out services from some entity other than their employer, such as the state. Kost Decl. ¶¶ 25-
20 34, 54. These harms uniquely impact women in that they affect women’s ability to pursue
21 additional education, spend additional time in their careers, and have increased earning power
22 over the long term—precisely the problem Congress sought to cure with the Women’s Health
23 Amendment. Tosh Decl. ¶ 25; Ikemoto Decl. ¶ 6; Arensmeyer Decl. ¶ 4; Bates Decl. ¶¶ 3, 6.
24 Thus, the Rules must be held unlawful and set aside as being in excess of statutory authority. 5
25 U.S.C. § 706(2)(C).

26 Defendants’ reliance on RFRA to enact the Rules is erroneous. 83 Fed. Reg. at 57541. Of
27 course, RFRA simply does not apply to the Moral Exemption Rule because RFRA does not
28 extend to moral beliefs. Nor does RFRA justify the Religious Exemption Rule. As a threshold

1 matter, “person,” as defined in RFRA, does not extend to for-profit publicly traded corporations.
 2 42 U.S.C. § 2000bb-1(a). Moreover, RFRA does not give Defendants license to allow employers
 3 to deprive women of their statutorily entitled benefits. To the extent that an employer has a
 4 religious objection, Defendants must still ensure that female employees are not deprived of their
 5 entitlement to equal access to medical care and coerced to participate in the religious beliefs of
 6 their employer. Russell Decl. ¶¶ 5, 6. The Rules here substantially burden third parties—denying
 7 female employees (and the female dependents of all employees) access to preventive care and
 8 services—based on the religious beliefs of the employer. RFRA cannot justify the broad scope of
 9 either the Moral or Religious Exemption Rule.

10 **B. The Exemption Rules Are Invalid Because Defendants Violated the APA by**
 11 **Permitting Only Post-Promulgation Comments**

12 Defendants evaded their obligations under the APA by promulgating rules without proper
 13 notice and comment. The APA requires agencies to provide the public notice and an opportunity
 14 to be heard *before* promulgating a regulation. The agency must publish in the Federal Register a
 15 notice of proposed rulemaking that includes “(1) a statement of the time, place, and nature of
 16 public rule making proceedings; (2) reference to the legal authority under which the rule is
 17 proposed; and (3) either the terms or substance of the proposed rule or a description of the
 18 subjects and issues involved.” 5 U.S.C. § 553(b). After the notice has issued, “the agency shall
 19 give interested persons an opportunity to participate in the rulemaking through submission of
 20 written data, views, or arguments with or without opportunity for oral presentation.” *Id.* § 553(c).

21 Here, it is undisputed that Defendants bypassed the notice and comment requirements of
 22 the APA. Instead, Defendants issued IFRs, took comments after the IFRs became effective, and
 23 then promulgated Final Rules.¹⁷ “It is antithetical to the structure and purpose of the APA” “to
 24 implement a rule first, and then seek comment later.” *Paulsen v. Daniels*, 413 F.3d 999, 1005 (9th
 25 Cir. 2005); *see also, e.g., Levesque v. Block*, 723 F.2d 175, 188 (1st Cir. 1983) (“[p]ermitting the
 26 submission of views after the effective date is no substitute for the right of interested persons to

27 _____
 28 ¹⁷As this Court previously concluded, and the Ninth Circuit affirmed, Defendants do not have
 statutory authority to bypass notice and comment. *See* Dkt. No. 105 at 17-25; *California*, 2018 WL
 6566752, at *9-13.

1 make their views known to the agency in time to influence the rule in a meaningful way”);
2 *Natural Resources Defense Council, Inv. v. EPA*, 683 F.2d 752, 768 (3rd Cir. 1982) (“post-
3 promulgation notice and comment procedures cannot cure the failure to provide such procedures
4 prior to the promulgation of the rule at issue”). “If a period for comments after issuance of a rule
5 could cure a violation of the APA’s requirements, an agency could negate at will the
6 Congressional decision that notice and an opportunity for comment must precede promulgation.”
7 *Sharon Steel Corp. v. EPA*, 597 F.2d 377, 381 (3rd Cir. 1979). “Provision of prior notice and
8 comment allows effective participation in the rulemaking process while the decisionmaker is still
9 receptive to information and argument.” *Id.* “After the final rule is issued, the petitioner must
10 come hat-in-hand and run the risk that the decisionmaker is likely to resist change.” *Id.* As this
11 Court and the Ninth Circuit already concluded, Defendants lacked good cause for failing to give
12 any notice to the public or allowing for public comment *before* these rules took immediate effect.
13 Dkt. No. 105 at 17-25; *California v. Azar*, 911 F.3d at 580. Defendants’ post-promulgation
14 acceptance of comments is no substitute. Notice and comment is particularly important in legally
15 and factually complex circumstances like those presented here—it allows affected parties to
16 explain the practical effects of a rule before implementation, and ensures that the agency proceeds
17 in a fully informed manner, exploring less harmful alternatives. *Alcaraz v. Block*, 746 F.2d 593,
18 611 (9th Cir. 1984); *Riverbend Farms, Inc. v. Madigan*, 958 F.2d 1479, 1483-1484 (9th Cir.
19 1992). Because Defendants failed to follow the APA’s notice and comment procedures, the Rules
20 are invalid.

21 **C. The Rules Are Arbitrary and Capricious Because Defendants Failed to**
22 **Provide an Adequate Justification for Their Reversal of Policy**

23 An agency must provide a “concise general statement of [a regulation’s] basis or
24 purpose”. 5 U.S.C. 553(c). “[A]n agency’s action must be upheld, if at all, on the basis articulated
25 by the agency itself.” *Motor Vehicle Mfrs. Ass’n of U.S., Inc. v. State Farm Mut. Auto. Ins. Co.*,
26 463 U.S. 29, 50 (1983). The agency must “articulate a ‘rational connection between the facts
27 found and the choice made.’” *Bowman Transp., Inc. v. Arkansas-Best Freight Sys., Inc.*, 419 U.S.
28 281, 285 (1974). Where an agency departs from a prior policy, it must at a minimum “display

1 awareness that it *is* changing position.” *F.C.C. v. Fox Television Stations, Inc.*, 556 U.S. 502, 515
2 (2009); *Jicarilla Apache Nation v. U.S. Dept. of Interior*, 613 F.3d at 1112, 1119 (D.C. Cir. 2010)
3 (holding that an agency that neglects to explain its departure from established precedent acts
4 arbitrarily and capriciously”). In addition, a more “detailed justification” is necessary where there
5 are “serious reliance interests” at stake or the new policy “rests upon factual findings that
6 contradict those which underlay its prior policy.” *F.C.C.*, 556 U.S. at 515; *see also State Farm*,
7 463 U.S. at 48-51 (regulation rescinding prior regulation after change in presidential
8 administration was arbitrary and capricious where agency failed to address prior fact findings).
9 And a change in administration does not authorize an unreasoned reversal of course. *See State v.*
10 *U.S. Bureau of Land Mgmt.*, 277 F.Supp.3d. 1106, 1123 (N.D. Cal. 2017) (“New presidential
11 administrations are entitled to change policy positions, but to meet the requirements of the APA,
12 they must give reasoned explanations for those changes and address the prior factual findings
13 underpinning a prior regulatory regime.” (quotation marks and brackets omitted)). Where the
14 agency action is “arbitrary” or “capricious,” the court must invalidate it. 5 U.S.C. § 706(2)(A).

15 Given the number of women nationwide who rely on the contraceptive-coverage
16 requirement, the government must provide greater justification for the Rules. *Perez v. Mortgage*
17 *Bankers Ass’n*, 135 S. Ct. 1199, 1209 (2015). Defendants failed to do so. The Rules are arbitrary
18 and capricious because they constitute a complete reversal of prior agency policy without a
19 detailed justification for such a substantial shift. The factual record remains unchanged since the
20 prior regulations were promulgated. And millions of women across the country have relied on the
21 ACA’s contraceptive-coverage requirement since 2012. Dkt. Nos. 170-1 & 170-2.¹⁸ The Rules
22 cite a number of reasons for the change, none of which meet the heightened standard. *See, e.g.*, 83
23 Fed. Reg. at 57537; 83 Fed. Reg. at 57593. For instance, the prior regulations found a compelling
24 government interest in ensuring that women have access to contraceptive coverage. *See Hobby*
25 *Lobby Stores*, 134 S. Ct. at 2785-86 (Kennedy, J., concurring). The Rules summarily announce
26 that there is not a compelling interest in ensuring women’s access to contraceptive coverage, yet

27
28 ¹⁸Nat’l Women’s Law Ctr, Fact Sheet, *Reproductive Rights & Health* (Nov. 2018), <https://nwlc-ciw49tixgw5lbab.stackpathdns.com/wp-content/uploads/2017/09/New-Preventive-Services-Estimates-4.pdf>; Rabinovitz Decl. ¶¶ 4-5.

1 provide no support for this complete about-face. 83 Fed. Reg. at 57545, 57546-57548; 83 Fed.
2 Reg. at 57605.

3 Further, there is no justification for the *scope* of the Rules. Defendants fail to justify
4 expanding the universe of employers, or its extension of the exemption (as opposed to the
5 accommodation). For example, the religious exemption is now available for publicly traded
6 entities, even though Defendants readily admit that they are not aware of any publicly traded
7 entities that have objected to providing contraceptive coverage on the basis of religious belief. 83
8 Fed. Reg. at 57562. Nevertheless, the Rules now make it easy for any such entity to opt out of
9 contraceptive coverage for any reason, including economic, because there is no notice required
10 and no oversight by the Defendants. Nor is there notice to an employee, outside of her regularly
11 provided evidence-of-coverage packet, including for new employees. Thus, unless a woman
12 combs through her statement of benefits, she will not know that her employer has exempted itself
13 from the contraceptive-coverage requirement, thereby depriving her of her statutorily entitled
14 benefits. Although the Rules refer to the *Hobby Lobby* and *Zubik* decisions, the Supreme Court
15 has never suggested that such a broad exemption, encompassing religious and moral objections
16 for nearly any employer at the detriment to women, is necessary.

17 In addition, the Rules rely on information about women's health that is "unfounded." Kost
18 Decl. ¶¶ 12-13 (explaining flawed data and analysis); Chance Decl. ¶¶ 6-19 (discussing the
19 problematic and arbitrary methods and estimates Defendants used to determine the likely number
20 of women affected by the unavailability of contraception due to the Rules, and suggesting that
21 actual number of affected women could be far greater). At the same time, the Rules ignore other
22 public health interests, such as the use of contraceptive medicines for non-birth control purposes.
23 Hollier Decl. ¶ 5; Bates Decl. ¶ 3.

24 The Rules note that contraceptive coverage is not mandated by Congress, only by the
25 implementing regulations. 83 Fed. Reg. at 57540. Yet, the ACA relied on HRSA to define the
26 scope of preventive services and in turn, HRSA's guidelines state that preventive services include
27 all FDA-approved contraceptive methods (along with other critical preventive services for
28

1 women). 42 U.S.C. § 300gg-13(a)(4).¹⁹ Further, the legislative history of the Women’s Health
 2 Amendment demonstrates that Congress expected contraceptives to fall within its ambit. *See, e.g.*,
 3 55 Cong. Rec. S12027 (Dec. 1, 2009) (statement of Sen. Gillibrand) (“more than half of women
 4 delay[ed] or avoid[ed] preventive care because of its cost”).²⁰ “[T]he Women’s Health
 5 Amendment ‘will require insurance plans to cover at no cost basic preventive services and
 6 screenings for women.’ Br. amici curiae of Senators Murray, et al., *Burwell v. Hobby Lobby*
 7 *Stores, Inc.* (Jan. 28, 2014).²¹ The Rules also ignore the IOM Report’s core findings that
 8 providing no-cost coverage of the full range of contraceptives is critical to women’s health and
 9 wellbeing. *Org. Vill. of Kake v. U.S. Dept. of Agric.*, 795 F.3d 956, 966 (9th Cir. 2015) (agency
 10 action is arbitrary where agency’s explanation is counter to the evidence before the agency).
 11 Finally, the Rules attempt to justify the reduction in coverage by pointing to federal and state
 12 programs that already provide women access to contraception. But this was true when the
 13 contraceptive-coverage requirement was promulgated and thus cannot provide a reasoned
 14 justification for the reversal in course. 83 Fed. Reg. at 57605, 57608; 83 Fed. Reg. at 57548.
 15 Further, these programs “simply cannot replicate or replace the gains in access made by the
 16 contraceptive coverage guarantee.” Kost Decl. ¶ 46.

17 Additionally, through the course of this litigation, Defendants have contended that that no
 18 employer will utilize these Rules. *See California v. Azar*, 18-15144, Fed. Def.’s Br. (Dkt #11), at
 19 28-34 (9th Cir. 04/09/2018). If so, there is no rational justification for upending the prior
 20 regulatory framework.

21 In short, the Rules are arbitrary and capricious and therefore invalid. 5 U.S.C. §
 22 706(2)(A). The facts have remained relatively unchanged since the prior regulations were
 23 promulgated, yet the Rules constitute a significant change in policy. As such, Defendants have

24 ¹⁹Health Res. & Serv. Admin., *Women’s Preventive Services Guidelines*,
 25 <https://www.hrsa.gov/womens-guidelines/index.html>; *See also* Women’s Preventive Services
 Initiative Report, <https://www.womenspreventivehealth.org/final-report/>.

26 ²⁰*See id.* at S12051 (statement of Sen. Franken) (similar); *see also, e.g.*, at S12052 (statement of
 27 Sen. Franken) (Noting the amendment expected to eradicate discriminatory barriers to preventive
 care—including contraceptive care—to result in substantially improved health outcomes for
 women); *see also id.* at S12059 (statement of Sen. Cardin) (noting that amendment will cover
 “family planning services”); *id.* (statement of Sen. Feinstein) (same).

28 ²¹<http://sblog.s3.amazonaws.com/wp-content/uploads/2014/02/hobby-lobby-conestoga-amicus-brief.pdf>

1 acted arbitrarily and capriciously and the Rules should be found unlawful. *See Encino Motorcars,*
 2 *LLC v. Navarro*, 136 S. Ct. 2117, 2126 (2016) (declining to defer to agency provided
 3 insufficiently reasoned explanation for “why it deemed it necessary to overrule its previous
 4 position.”); *see also F.C.C.*, 556 U.S. at 535-536 (Kennedy, J., concurring).

5 **II. ABSENT AN INJUNCTION, OREGON WILL SUFFER IRREPARABLE HARM**

6 This court previously found that the plaintiff States were likely to suffer irreparable harm.
 7 The same analysis applies to Oregon, if the nationwide injunction is lifted.

8 If the nationwide injunction is lifted, the Rules will inflict irreparable harm upon Oregon.
 9 *Winter*, 555 U.S. at 22; *California v Azar*, 911 F.3d at 582 (affirming this Court’s conclusion that
 10 “potentially dire public health and fiscal consequences” will result without an injunction). The
 11 threat of harm here is imminent. *Caribbean Marine Servs. Co., Inc. v. Baldrige*, 844 F.2d 668,
 12 674 (9th Cir. 1988). Any day the Rules are in effect will be another day that employers can
 13 eliminate contraceptive coverage for Oregon employees and their dependents, without any
 14 separate notice. *See, e.g., Werberg Decl.* ¶¶ 4-9.²² For workers and beneficiaries in existing
 15 health plans, contraceptive coverage could be dropped with 60-days notice that the employer is
 16 revoking its use of the accommodation process, or when a new plan year begins. 26 C.F.R. §
 17 54.9815-2713A(a)(5); 29 C.F.R. § 2590.715-2713A(a)(5); 45 C.F.R. § 147.131(c)(4); 26 C.F.R. §
 18 54.9815-2715(b); 29 C.F.R. § 2590.715-2715(b); 45 C.F.R. § 147.200(b). This loss of coverage
 19 will mean that women no longer have seamless access to their essential healthcare benefits. This
 20 will result in a lack of continuity of care. *Rabinovitz Decl.* ¶ 7. Oregon will also suffer concrete
 21 and irreparable injury, including to those already covered through plans using the
 22 accommodation.

23 First, lack of access to contraception will likely cause unintended pregnancies to rise,
 24 triggering a chain of events with widespread repercussions. When contraception is provided at no

25 ²² Oregon does have a contraceptive equity law (H.B 3391, known as the Reproductive Health Equity
 26 Act). However, it does not apply to self-insured plans or plans that are exempt from state regulation.
 27 ORS743B.005(16). Emily Bazar, *For Millions of Insured Americans, State Health Laws Don’t Apply*,
 28 *The Washington Post* (Nov. 16, 2017), https://www.washingtonpost.com/national/health-science/for-millions-of-insured-americans-state-health-laws-dont-apply/2017/11/16/138f4476-cab7-11e7-b506-8a10ed11ecf5_story.html?noredirect=on&utm_term=.f2b609de3f19 (61% of covered workers are in self-funded plans); 83 Fed. Reg. at 57612 (acknowledging state laws do not apply to self-insured plans and vary in scope).

1 cost under the ACA, women are free to use the most effective methods, resulting in lower rates of
2 unintended pregnancy, abortion, and birth among adolescents. Kost Decl. ¶¶ 7-9, 14-15, 17-19,
3 32; *Id.* at ¶ 25 (A long-acting reversible contraceptive (LARC) “costs nearly a month’s salary or a
4 woman working full time at the federal minimum wage”); Grossman Decl. ¶ 9 (“women now
5 save an average of 20% annually in out-of-pocket expenses, including \$248 savings for IUDs and
6 \$255 for the contraceptive pill”); Hollier Decl. ¶ 6; Ikemoto Decl. ¶ 5; Tosh Decl. ¶ 26; Nelson
7 Decl. ¶ 30. The converse is true under the Rules. As the cost of contraception increases, women
8 are more likely to use less effective methods, use them inconsistently or incorrectly, or not use
9 them at all—and the result is a higher rate of unintended pregnancies. Kost Decl. ¶¶ 29, 39-42;
10 Hollier Decl. ¶ 6; Grossman Decl. ¶¶ 8-9 (“women from advantaged groups (income over
11 \$75,000) were far more likely to actually use a LARC method when they preferred LARC”);
12 Ikemoto Decl. ¶ 5; Jones Decl. ¶ 15; Tosh Decl. ¶ 36; Nelson Decl. ¶ 30; Rattay Decl. ¶ 7; Lytle-
13 Barnaby Decl. ¶ 28; Skinner Decl. ¶ 20. Significantly, the risk of unintended pregnancy is
14 greatest for the most vulnerable women: young, low-income, minority women, without high
15 school or college education. IOM Report at 103; Kost Decl. ¶ 45.

16 The consequences of unintended pregnancies felt by states, including Oregon, and their
17 residents are both immediate and far-reaching. Over half of unintended pregnancies end in
18 miscarriage or abortion. Tosh Decl. ¶ 26. For pregnancies carried to term, intervals between
19 pregnancies of less than 18 months are associated with poor obstetric outcomes, including
20 maternal health problems, premature birth, birth defects, low birth weight, and low mental and
21 physical functioning in early childhood. Kost Decl. ¶ 42; Grossman Decl. ¶ 7; Jones Decl. ¶ 18;
22 Nelson Decl. ¶ 30; Tosh Decl. ¶ 25; Rabinovitz Decl. ¶¶ 4-5. All these outcomes—whether
23 miscarriages, abortions, or live births (particularly high-risk births)—cost Oregon in both the
24 short-term and long-term. Oregon, like other States, is burdened not only with funding a
25 significant portion of the medical procedures associated with unintended pregnancies and their
26 aftermath, Rimberg Decl. ¶¶ 8-9 (Oregon); Kost Decl. ¶¶ 54, 61 (California), 69 (Connecticut),
27 77 (Delaware), 85 (District of Columbia), 93 (Hawaii); 101 (Illinois), 109 (Maryland), 117
28 (Minnesota), 125 (New York), 133 (North Carolina), 141 (Rhode Island), 149 (Vermont), 157

1 (Virginia), 165 (Washington); Tosh Decl. ¶¶ 26-28; Rattay Decl. ¶ 6; Peterson Decl. ¶ 6; Welch
2 Decl. ¶ 13; Wilson Decl. ¶ 5; Tobias Decl. ¶ 4; Zerzan-Thul Decl. ¶¶ 10-11; Alexander-Scott
3 Decl. ¶ 3; Maisen Decl. ¶11; Moracco Decl. ¶ 5; Gobeille Decl. ¶¶ 6-7, but also with the lost
4 opportunities for affected women to advance professionally and educationally and to contribute as
5 taxpayers. Kost Decl. ¶ 44; Hollier Decl. ¶ 5; Arensmeyer Decl. ¶ 4; Nelson Decl. ¶ 31; Bates
6 Decl. ¶¶ 3, 6. These lifelong consequences for women and their families are severe; for Oregon,
7 like the other plaintiff states, such harm is irreparable because it cannot be undone with a
8 successful result at the end of the litigation. The only way to avoid this disruption is to ensure that
9 the ACA’s guarantee of no-cost contraceptive coverage is maintained while this litigation
10 proceeds. *Leigh v. Salazar*, 677 F.3d 892, 902 (9th Cir. 2012) (“Preliminary injunctions normally
11 serve to prevent irreparable harm by preserving the status quo” pending adjudication of the action
12 on the merits).

13 Second, if the Rules are not enjoined, Oregon is likely to face increased costs of providing
14 contraception to its residents. This is particularly true if the Title X rules go into effect – a matter
15 of additional challenge in the courts. *State of Oregon v Azar*, 6:19-cv-00317-MC (District of
16 Oregon). In Oregon, like other states that have family planning programs, the state government
17 will be left to pick up the tab. Rimberg Decl ¶ 7; Kost Decl. ¶¶ 63-166; Cantwell Decl. ¶ 17;
18 Tosh Decl. ¶¶ 34-35; Nelson Decl. ¶¶ 15-16, 35; Rattay Decl. ¶ 8; Lytle-Barnaby Decl. ¶ 28;
19 Skinner Decl. ¶¶ 21-22; Tobias Decl. ¶ 5; Gallagher Decl. ¶¶ 18-19; Zerzan-Thul Decl. ¶ 8;
20 Navarro Decl. ¶ 14; Anderson Decl. ¶ 4; Maisen Decl. ¶ 11; Kreidler Decl. ¶ 15; Gobeille Decl. ¶
21 6; Peterson Decl. ¶ 6. Indeed, the Rules direct women to Title X clinics; however, these clinics
22 are designed for low-income women and lack the capacity to serve a new patient population,
23 Cantwell Decl. ¶ 18; Tobias Decl. ¶ 5. Thus, directing Oregon women to Title X means more
24 women will be enrolled in the state’s programs.

25 Even a slight uptick in such costs will cause irreparable harm to Oregon. *Simula, Inc. v.*
26 *Autoliv, Inc.*, 175 F.3d 716, 724 (9th Cir. 1999) (“magnitude of the injury” is not determinative);
27 *Ariz. Dream Act Coal. v. Brewer*, 757 F.3d 1053, 1068 (9th Cir. 2014) (court erred by attempting
28 to evaluate the severity of the harm, rather than determining whether the harm was irreparable).

1 **III. THE BALANCE OF EQUITIES AND THE PUBLIC INTEREST FAVOR ISSUING**
2 **AN INJUNCTION TO PRESERVE THE STATUS QUO**

3 This court also found that the balance of the equities favored plaintiff States. Similarly,
4 the balance of the equities and the public interest support expanding the preliminary injunction to
5 include Oregon. *See Winter*, 555 U.S. at 24; *California v. Azar*, 911 F.3d at 581 (affirming this
6 Court’s conclusion that the balance of equities and public interest weigh in favor of an
7 injunction). Particular attention should be given to preserving the status quo. *Chalk v. U.S. Dist.*
8 *Court Cent. Dist. Cal.*, 840 F.2d 701, 704 (9th Cir. 1988). Here, the status quo is the ACA’s
9 contraceptive-coverage requirement, and the carefully and deliberately crafted accommodation
10 and exemptions. *Dep’t of Parks & Recreation for State of Cal. v. Bazaar Del Mundo Inc.*, 448
11 F.3d 1118, 1124 (9th Cir. 2006) (status quo is “the last uncontested status that preceded the
12 parties’ controversy”).

13 Absent a nationwide preliminary injunction, the Rules will take effect in Oregon,
14 immediately enabling an employer to drop ACA-required contraceptive coverage upon 30-days
15 notice that it is invoking the accommodation process, upon 60-days notice that it is revoking its
16 use of the accommodation process, or when a new plan year begins. 26 C.F.R. § 54.9815-2713A;
17 29 C.F.R. § 2590.715-2713A(a)(5); 45 C.F.R. § 147.131(c)(4); 26 C.F.R. § 54.9815-2715(b); 29
18 C.F.R. § 2590.715-2715(b); 45 C.F.R. § 147.200(b). And because an employer need not notify
19 the federal government of its decision, without a preliminary injunction, the parties to this
20 litigation will not know which employers stop providing the required coverage, thus impeding the
21 Court from preventing harm once the rules take effect.

22 The Ninth Circuit found that the record supported the “potentially dire public health and
23 fiscal consequences as a result of a process as to which [plaintiffs] had no input” and highlighted
24 the public interest in access to contraceptive care. *California v. Azar*, 911 F3d at 582. And this
25 Court has recognized the importance of the public interest at stake—“the interest in ensuring
26 coverage for contraception and sterilization services” as provided by the ACA, in previously
27 issuing a preliminary injunction. Dkt. No. 105:15-16; *California v. Health & Human Servs.*, 281
28 F Supp 3d 806, 830–31 (ND Cal 2017).

1 While any lifting of the nationwide injunction and ensuing enforcement of the Rules will
 2 inflict grave and lasting harm upon Oregon and its residents, Defendants will suffer little harm if
 3 the Rules are enjoined. The ACA’s accommodation and exemptions would still be available as
 4 this matter is litigated to its conclusion. *League of Wilderness Defenders/Blue Mountains*
 5 *Biodiversity Project. v. Connaughton*, 752 F.3d 755, 765 (9th Cir. 2014) (the balance of equities
 6 generally tips in favor of plaintiffs when the harms they face if an injunction is denied are
 7 permanent, while the harms defendants face if an injunction is granted are temporary).

8 As the Ninth Circuit held, the public interest is served by compliance with the APA.
 9 *California v. Azar*, 911 F.3d at 581-582 (citing *Alcaraz*, 746 F.2d at 610). As argued above, the
 10 Final Rules violate the APA. The Court should grant Oregon’s motion to expand the preliminary
 11 injunction.

12 **IV. THE COURT SHOULD EXPAND THE INJUNCTION**

13 Adding Oregon to the preliminary injunction is necessary to ensure complete relief to
 14 Oregon and other plaintiff States. Oregon is home to students who are on their parents’ employer-
 15 sponsored health plans, and those parents and employers are out-of-state.²³ Similarly, Oregonians
 16 attend universities in other plaintiff states, particularly California and Washington. *Id.*
 17 Additionally, reproductive healthcare providers in Oregon serve residents of other states who
 18 travel to receive care.²⁴ These scenarios demonstrate that this Court cannot ignore the realities of

19 ²³See also National Center for Education Statistics,
 20 https://nces.ed.gov/programs/digest/d17/tables/dt17_309.20.asp?current=yes (reflecting, for
 21 example, that in 2012 (the most recent year published online), 4,166 Oregonian high school
 22 graduates in the past 12 months were enrolled in post-secondary educational institutions out of
 23 state, and 6,913 out-of-state high school graduates in the past 12 months attended colleges in
 24 Oregon); see also Daily Emerald, “*UC Eugene – why Californian students keep coming and what*
 25 *it means for the UO*” by Troy Shinn, May 22, 2016, available at
 26 [https://www.dailyemerald.com/news/academics/uc-eugene-why-californian-students-keep-](https://www.dailyemerald.com/news/academics/uc-eugene-why-californian-students-keep-coming-and-what-it/article_340f997d-246d-50a4-a4ff-0d4d5f6dbb72.html)
 27 [coming-and-what-it/article_340f997d-246d-50a4-a4ff-0d4d5f6dbb72.html](https://www.dailyemerald.com/news/academics/uc-eugene-why-californian-students-keep-coming-and-what-it/article_340f997d-246d-50a4-a4ff-0d4d5f6dbb72.html) (noting that at the
 28 beginning of 2016, there were more than 4,248 Californian students attending the University of
 Oregon); see also <https://admissions.oregonstate.edu/california> (advertising that Oregon State
 University has 3,260 Californian students and that this is the largest group of out-of-state students
 at the university; and <https://admissions.oregonstate.edu/washington> (advertising that 1,078
 students are from Washington State, which is the second largest group of out-of-state students);
 see also https://college.lclark.edu/offices/admissions/facts_and_figures/ (showing 29% of the
 students at Lewis and Clark College of Arts and Sciences are from California and another 8% are
 from Washington State); and finally see also <https://sou.edu/admissions/afford/california/> (noting
 that Southern Oregon University is “Just 15 minutes north of the CalifOregon border” and that it
 has a reciprocity agreement with Northern California community colleges).

²⁴Indeed, work, residence and health care in Portland, Oregon is so interconnected with

(continued...)

1 inter-state life, and that Oregon must be included in the preliminary injunction to ensure complete
2 relief to Oregon and the other plaintiff States.

3 **CONCLUSION**

4 The State of Oregon respectfully requests that the Court grant this motion for preliminary
5 injunction and enjoin implementation of the Exemption Rules in Oregon, and add Oregon to the
6 existing preliminary injunction.

7 DATED April 30, 2019.

8 Respectfully submitted,

9 ELLEN F. ROSENBLUM
10 Attorney General

23 _____
(...continued)

24 work, residence and health care in Vancouver, Washington, just over the Columbia River, that the
25 largest hospital system in Oregon, Providence Health & Services, lists these providers services for
26 “Oregon and Southwest Washington” together at <https://oregon.providence.org/> and provides
27 contraceptive services both in Portland, Oregon and Vancouver, Washington. That is no surprise
28 because an average of 44,756 Clark County, Washington (including Vancouver) residents work in
Multnomah County, Oregon (including Portland) and 9,588 Multnomah County residents work in
Clark County during 2009-2013, as reported in The Columbian, “Commuter trend heading north
into Vancouver,” Eric Florip, Aug. 14, 2015 at [https://www.columbian.com/news/2015/aug/14/
commuter-trend-northbound-i-5-vancouver/](https://www.columbian.com/news/2015/aug/14/commuter-trend-northbound-i-5-vancouver/). The number of daily commuters between Oregon
and Washington is now estimated at over 70,000; the city of Vancouver and Clark County are
really suburbs of Portland, Oregon. *Id.*
