The House met at 9 a.m. and was called to order by the Speaker pro tempore (Ms. DelBene).

DESIGNATION OF THE SPEAKER PRO TEMPORE
The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC

I hereby appoint the Honorable Suzan K. DelBene to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

PRAYER
The Chaplain, the Reverend Patrick J. Conroy, offered the following prayer:

God of mercy, thank You for giving us another day.

Bless the Members of the people’s House today, a legislative day in response to the growing impact of the coronavirus. As our leaders near an agreement on an economic stimulus package to combat the effects of the pandemic, send Your comforting and encouraging spirit to each one.

May they, united in their resolve to serve all Your people, put aside the divisions that exist to find an effective response that benefits all, but most especially those who are one or two paychecks removed from long-lasting negative impacts beyond the presence of the disease itself.

We thank You, as well, for those men and women in the private sector whose generosity and sensitivity to the vulnerable have emerged to the edification of all who have eyes to see. Bless them for their response in the current environment.

Finally, continue to bless those who suffer with the virus infection and those whose labor is in treating this illness and finding an effective cure. May all that is done be for Your greater honor and glory.

Amen.

THE JOURNAL
The SPEAKER pro tempore. Pursuant to section 7(a) of House Resolution 891, the Journal of the last day’s proceedings is approved.

PLEDGE OF ALLEGIANCE
The SPEAKER pro tempore. Will the gentleman from Washington (Mr. Newhouse) come forward and lead the House in the Pledge of Allegiance.

Mr. NEWHOUSE led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE
The SPEAKER pro tempore. The Chair will entertain up to five requests for 1-minute speeches on each side of the aisle.

PROMPT ACTION NEEDED TO ADDRESS CORONAVIRUS PANDEMIC
(Mrs. Dingell asked and was given permission to address the House for 1 minute.)

Mrs. DINGELL. Madam Speaker, I rise in support of the Families First Coronavirus Response Act. Our Nation is confronting an unprecedented pandemic, unlike what any of us can remember.

Our role in the Congress is to be proactive and ensure public health officials have the resources and tools that they need to keep our communities safe in the coming weeks and months. Prompt action is needed to address this extraordinary situation, and the Families First Coronavirus Response Act begins to meet the needs of many people in our communities.

The legislation ensures testing is 100 percent covered and paid sick leave. It ensures that food and economic assistance goes directly to hardworking men, women, and families deeply affected by the outbreak.

It also provides much-needed financial assistance to the States to meet this critical public health challenge that they are facing right now.

Leaders must lead. People are legitimately afraid, but we have to work together to address this issue.

EXTEND CHEMICAL FACILITY ANTI-TERRORISM STANDARDS PROGRAM
(Mr. Shimkus asked and was given permission to address the House for 1 minute.)
Mr. SHIMKUS. Madam Speaker, I rise in support of the extension of the Chemical Facility Anti-Terrorism Standards program.

The CFATS program, first authorized in 2006, is a continuation of congressional efforts since September 11 to protect the homeland. The program surgically and directly addresses gaps in Federal law regarding the security of high-risk facilities that use or possess chemicals of concern at levels of concern.

The program is unique in that, to avoid overlapping with other Federal programs, CFATS was designed to foster collaboration between the government and regulated parties.

CFATS is a security program. Regrettably, over the years, some have tried to make CFATS a safety program, but safety and security are two very different things. Security is about protecting your ability to operate, and safety is about controlling how you operate. We should continue to preserve the program’s focus on security.

Finally, it is imperative that, going forward, we find a way to extend the life of the program for a longer period of time, at least 5 years, in order to give the program, its personnel, and the participants the consistency they all need to be successful in their mission.

DO WHATSOEVER IT TAKES TO MINIMIZE DAMAGE FROM PANDEMIC

(Mr. CICILLINE asked and was given permission to address the House for 1 minute.)

Mr. CICILLINE. Madam Speaker, today, the House will vote on the Families First Coronavirus Response Act. This critical legislation provides much-needed support for working people across America.

It includes funding for free coronavirus tests for everyone who needs it; 14 days of paid sick leave and up to 3 months of paid family and medical leave; enhanced unemployment insurance that will protect furloughed workers; food security through SNAP student meals, senior nutrition, and food banks; and increased Federal funds for Medicaid.

We are facing an enormous crisis in our country right now.

Once we pass this bill, the Senate and the President need to act swiftly so these resources are made available to the American people.

Madam Speaker, I thank Speaker Nancy Pelosi and all of our colleagues who worked so hard on this over the last several days. Nothing is more important than protecting the health and well-being of the American people.

There is more work to be done, and we will do whatever it takes, bear any burden, confront any obstacle in order to minimize the damage that this pandemic will do to our country, and we will do all that we can to keep our country and our constituents safe.

SUPPORT SMALL BUSINESSES TO HELP RECOVERY

(Mr. LaMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LaMALFA. Madam Speaker, the prevailing thought has been “things will get worse before it gets better,” and recently, it appears the “worse” part is here.

Necessary measures are being taken as we have learned more about this virus. We now have a new term: “social distancing.”

Small businesses, though, are suffering, and tourism, the economy in general. This outbreak is causing a lot of hurt.

Now more than ever, it is important to support our local small businesses. They are the backbone of our economy and are experiencing a decline that we haven’t seen in a long time from the recent coronavirus outbreak in their towns.

Their failure will result in a much larger problem for a country that has proven to be quite resilient.

The SBA is offering disaster assistance loans to small businesses impacted by the virus.

The issue is to ease and cushion our economy so that, in a few weeks, we can start our bounce back. And, indeed, we will bounce back.

Last week’s measure will help our health providers. Hopefully, this week’s economic package is not chock-full of socialist wish lists by the Democrats but is something that will actually be helpful to save lives and the economy and is affordable at the same time.

I hope we can accomplish good work this week.

CORONAVIRUS NOT REPUBLICAN OR DEMOCRATIC

(Ms. KüSTER of New Hampshire asked and was given permission to address the House for 1 minute.)

Ms. Kuster. Madam Speaker, today, the House of Representatives will consider the Families First Coronavirus Response Act, critical legislation to expand paid emergency leave for American workers, to ensure free coronavirus testing, to bolster unemployment insurance for furloughed workers, and to strengthen our safety net for workers and students experiencing food insecurity due to closures.

Democrats and Republicans must continue to advance this emergency legislation to protect the health and economic security of the American people.

The coronavirus does not choose Republican or Democrat, and the American people are looking to this Chamber for leadership.

Madam Speaker, I thank our frontline nurses, doctors, physicians, public health officials, and first responders for their tireless and courageous efforts to keep Granite Staters safe. They are heroes to all of us, and they are bringing needed comfort to those who have been impacted by this public health crisis.

HONORING CAPTAIN MOISES NAVAS AND GUNNERY SERGEANT DIEGO PONGO

(Mr. NEWHOUSE asked and was given permission to address the House for 1 minute.)

Mr. NEWHOUSE. Madam Speaker, Captain Moises Navas and Gunnery Sergeant Diego Pongo, both Marine Raiders, lost their lives on March 8 while on a mission to eliminate ISIS terrorists in Iraq.

I met Captain Navas last year when he spoke at a ceremony to rename a local post office in honor of his fallen comrade, Sergeant Dietrich Schmieman, a central Washington native.

With great poise and humility, the captain said at the time: “We can all sleep well and find comfort in knowing that it is Americans who raise their hands; this Nation’s defense is in the hands of guys such as Dietrich Schmieman.”

Madam Speaker, it is imperative that we not lose sight of the fact that, as we speak, the brave men and women of our Armed Forces are standing guard to keep our Nation safe.

Today, I rise to echo those powerful words from a brave young captain, pictured here alongside Sergeant Schmieman’s parents at the post office dedication, to say that we can indeed sleep soundly because of heroes like Moises, Diego, and Dietrich.

HONORING SIDNEY ESKENAZI

(Mr. PENCE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PENCE. Madam Speaker, I rise today to honor my friend and fellow Hoosier, Sidney Eskenazi. He will be celebrating his 90th birthday this March 25.

Sidney is a true philanthropist and civic leader. He and his loving wife, Lois, serve as pillars of our Hoosier community and role models for future generations. Without their charitable efforts, many Hoosiers would not have access to higher education, the fine arts, and quality healthcare.

Indiana is indebted to the Eskenazis for their leadership and generosity over the past five decades.

The Pence family, my wife, my children, are truly blessed to consider Sidney and Lois close friends, and we thank them for serving our communities with a true servant heart.

God bless Sid and Lois, and I look forward to continuing to work with them for the benefit of Hoosiers everywhere.

Happy birthday, Sid.
WE REPRESENT ALL OF AMERICA

(Mr. REED asked and was given permission to address the House for 1 minute.)

Mr. REED. Madam Speaker, I came down this morning, after hearing Father Conroy give his opening speech, to address this House and to address this Nation today in these hallowed Halls to send the message that today is not a day to engage in partisan politics.

As a Republican, my hand is open to my fellow Americans, for us to come together, to stand with our Nation as we face this coronavirus crisis across the country.

Madam Speaker, the people of America are who we represent. They are not Democrat and Republican; they are American. Now is the time to lead with smart, targeted decisionmaking proposals that will improve their lives for the better.

God bless.

COVID-19 REQUIRES COMPREHENSIVE RESPONSE

(Ms. MUCARSEL-POWER asked and was given permission to address the House for 1 minute.)

Ms. MUCARSEL-POWER. Madam Speaker, Miami-Dade County has its first two confirmed cases of COVID–19, and we are all very concerned. Across the country, events are canceled and store shelves are empty. With anxieties high, we are receiving mixed messages when we need right now is coherence.

It is discouraging to see countries like South Korea respond much more effectively than we are. While they screen tens of thousands, we have sick patients and frustrated doctors who cannot access testing.

This is not right. We must make tests available and accessible to everyone. We must strengthen our healthcare system so we have the beds, the masks, the respirators, and the supplies to respond to a surge in cases. We must provide relief to our working families and local businesses struggling to cope with this virus.

Madam Speaker, I believe we have it within us to fulfill these needs, but we all must come together for a comprehensive response to meet this moment. I urge my colleagues to support this legislation.

(b) PAYGO SCORECARDS.—The budgetary effects of division B and each succeeding division shall not be entered on any PAYGO scorecard maintained for purposes of section 4106 of H. Con. Res. 71 (115th Congress).

(c) CLASSIFICATION OF BUDGETARY EFFECTS.—Notwithstanding Rule 3 of the Budget Scorekeeping Guidelines set forth in the joint explanatory statement of the conference accompanying Conference Report 105–217 and section 250(c)(8) of the Balanced Budget and Emergency Deficit Control Act of 1985, the budgetary effects of division B and each succeeding division shall not be estimated—
(1) for purposes of section 251 of such Act; and
(2) for purposes of paragraph (4)(C) of section 3 of the Statutory Pay-As-You-Go Act of 2010 as being included in an appropriation Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New York (Mrs. LOWEY) and the gentlewoman from Texas (Ms. GRANGER) each will control 20 minutes.

The Chair recognizes the gentlewoman from New York.

GENTLEWOMAN FROM NEW YORK.

Mrs. LOWEY. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their reports and included material on H.R. 6201, currently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New York? There was none.

Mrs. LOWEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Families First Coronavirus Response Act builds on the $3.3 billion supplemental enacted last week to meet the needs of the American people, by:

Guaranteeing free coronavirus testing;
Providing paid leave; and
Strengthening food security initiatives through additional investments in WIC, food banks, and senior nutrition.

The bill also makes sure that children who depend on free and reduced-price meals have access to food during school and childcare closures.

Mr. Speaker, we must help ensure the physical safety and financial security of our Nation’s working families during this time of crisis.

Mr. Speaker, I urge my colleagues to join me in support of this legislation, and I reserve the balance of my time.
staff has worked around the clock, as always, working with Ranking Member Brady’s staff to get bipartisan input into these provisions.

The Speaker and I have spent much time on the phone with the Secretary of the Treasury to ensure, along with Mr. Mnuchin, that this bill contains the administration and both parties in this institution can support. As a result, we have a very good product here. I am confident this measure will pass Congress with full bipartisan support to reach the President’s desk without issue.

As we face this challenge, Americans are looking to their government leaders to come together and present real solutions. Today, we are doing that. We are taking decisive action to help limit the spread of coronavirus, allow Americans critical access to testing, and provide families financial security in the near and the long term.

Lastly, let me acknowledge the committee staff of Ways and Means Committee for the work that they have put into this legislative achievement. Legislative counsel truly put in a Herculean effort to assemble this bill, along with leadership staff. They worked around the clock, all hours of the day and night, to create the immediacy of this legislation that will slow the spread of this virus, support American workers and families, and save lives.

In particular, I want to acknowledge the teams on our Health, Worker and Family Support, Select Revenue Measures, and Social Security Subcommittees for their excellent contributions. The American people will be better equipped to weather this crisis thanks to their important bipartisan work.

Mr. Speaker, I urge full support of this legislation.

Ms. GRANGER. Mr. Speaker, I yield to 4 minutes to the gentleman from Texas.

Mr. BRADY. Mr. Speaker, President Trump’s declaration of a national emergency is a call to action to protect American’s health and well-being and to support the economy.

This bill, thanks to the leadership of Secretary Mnuchin and Leader McCarthy, and working with both sides of the aisle, meets many of these goals.

The President has succeeded in working with the private sector to achieve free tests for our bill builds on that. Americans in need of lab tests for the coronavirus will get them free.

We are making good on President Trump’s promise to provide financial assistance for working Americans who are ill, quarantined, or caring for others due to coronavirus, and it does so by using our Tax Code rather than by creating a new entitlement.

The original bill contained provisions that would create undue burdens on America’s small businesses. I have spoken directly with President Trump, the champion of small business, who agrees that America’s small businesses need flexibility and cash flow when providing emergency leave for workers so that they can operate and survive during this economic challenge.

In order to help small businesses and their workers, language has been added to this bill, and President Trump is directing the Secretaries of the Treasury and Labor to work to ensure that small businesses do have the flexibility to provide paid leave for their employees.

They shouldn’t have to be concerned about cash flow when they work to contain the virus, operate and keep serving their customers and our communities. This is vital to America’s economic rebound.

This bill also protects seniors and those with severe medical conditions by ensuring that the Social Security Administration is not running a new permanent mandate.

We were also able to stop some misguided demands. In this bill, the health provisions are now limited to COVID-19 with no mention of pre-existing conditions, ensuring that pro-life Hyde amendment protections remain intact to prevent taxpayer funds being used for abortions.

Republicans were able to block efforts that would have put burdens on hospitals that would have overruled the CDC’s science-based guidelines and prevented critical flexibility for our local healthcare providers.

These are temporary, targeted measures. They are temporary because we have seen what happens when a bill is supposed to be “timely, targeted, and temporary” drags on for years. It prolongs economic hardship.

We will rebound, and we will rebuild strongly. Good policies—ones that strengthen our local communities—result in speedy recoveries.

In America, we know we are blessed, even when faced with great adversity. We are blessed by an abundance not of material things, but of spirit. It is that very spirit that will get us through the coronavirus and the other challenges we face in the future.

While today’s bill is not perfect, it is another step in the right direction toward safety and security and a revitalized economy.

I encourage my colleagues to vote for this bill and then come back to the table so we can continue our work to keep American workers and families prepared, safe, and healthy.

Ms. GRANGER. Mr. Speaker, I urge a “yes” vote on this bill, and I yield back the balance of my time.

Ms. LOWEY. Mr. Speaker, the hour is late, vote “yes,” and I yield back the balance of my time.

Mr. McGovern. Mr. Speaker, we have once again been called to respond to a crisis. In the past, we have faced national security threats and natural disasters. But today, it is something radically different: A pandemic.

What started half a world away has now spread to more than 100 countries. The coronavirus knows no border. It knows no political party. And Mr. Speaker, our response shouldn’t either.

Ms. JOHNSON of Texas. Mr. Speaker, today, I rise in support of the Families First Coronavirus Response Act, which will provide the crucial support for our workforce and economic amid the current public health emergency associated with COVID-19. It is our duty to care for all members of our society, and this stimulus package will do so. We will ensure that hourly workers and families have access to emergency paid sick leave, food security, and—most importantly—free testing for coronavirus, regardless of insurance status.

For families’ economic security, we have secured paid emergency leave, with two weeks of paid sick leave and up to three months of paid family and medical leave. We have also secured enhanced Unemployment Insurance, which will extend protections to furloughed workers.

For families’ food security, we have strengthened nutrition security initiatives, including SNAP, student meals, seniors’ nutrition and food banks. For the twenty-two million Americans who rely on free or reduced-price school meals for their food security, we must ensure that they have food to eat.

For families’ health security, we have increased federal funds for Medicaid to support our local, state, tribal and territorial governments and health systems, so that they have the resources necessary to combat the coronavirus.

As representatives of Americans from all corners of our country, we have a responsibility to protect the health and well-being of our communities in times of crisis. I urge my colleagues to support the Families First Coronavirus Response Act.

Mr. BISHOP of Georgia. Mr. Speaker, I strongly support this bill.

As Chairman of the Agriculture, Rural Development, and FDA Subcommittee of Appropriations, I want to acknowledge the tremendous cooperation between the Appropriations and authorizing committees in producing this bill so quickly.

It takes a truly multi-jurisdictional approach to addressing the urgent needs, many families face, as we face this economic. [The fight against this scourge will be tough and we must be prepared.]

Last week we provided $61 million to FDA for the development and review of medical countermeasures, devices, therapies, and vaccines to combat the coronavirus.

Today, we work to protect our families. Cancellation of conferences, sporting events and other gatherings is having a major impact on the hospitality, transportation, and related industries, resulting in layoffs that will likely cause families to turn to WIC and food banks for help.

Schools are closing, leaving children without free and reduced-price meals.
But I am pleased this bill would allow households with eligible children to receive emergency SNAP assistance to put food on the table. Three programs get additional funds in this bill:

First, we provide $500 million for WIC to provide nutritious foods for low-income pregnant women or mothers with young children who lose their jobs or are laid off due to the coronavirus emergency.

Second, we provide $400 million for The Emergency Food Assistance Program—TEFAP—to help local food banks meet increased demand during the emergency.

Third, we provide $100 million for Nutrition Assistance for the U.S. Territories. Puerto Rico, American Samoa, and the Northern Mariana Islands rely on Congress to block grant their SNAP funds in an emergency and these funds will support their pandemic response.

Thanks to the Chairs and staffs of the Appropriations and authorizing committees who worked together over the last 72 hours on this bill. It will bring relief, consolation, and hopefully food security to our constituents.

Mr. SCOTT of Virginia. Mr. Speaker, the spread of COVID–19 will present increasingly severe challenges for students, workers, and families across this country. Our leaders are counting on this Congress to deliver a bold, immediate, and targeted response.

The Families First Coronavirus Response Act—which is the result of careful bipartisan negotiations—is an important step toward providing paid and family leave for the American people the support they need to confront this national emergency.

This bill ensures that all Americans can access cost-free COVID–19 testing.

It provides states and schools the flexibility they need to ensure that students do not go hungry during school closures. It also provides child and adult care providers additional support to make sure people are getting the nutrition they need.

It provides women, infants, and children with the flexibility to access WIC food benefits and infant formula without the need to make un-sure visits to clinics.

It provides workers 14 days of emergency paid sick leave, so they are not forced to choose between their paycheck and their health.

And it also provides enhanced unemployment compensation and paid family and medical leave so that workers can take time off to care for themselves and their loved ones without losing their jobs.

By passing this legislation, we protect the health and financial security of millions of students, workers, and families.

But we must recognize that this package alone is not sufficient. In the coming weeks, we must be willing to take further action to address the consequences of this epidemic.

For example, I am particularly concerned that this bill does not include important safety protections for our front-line health care workers, who will be called upon to perform heroic work on behalf of others. I will continue to work with my colleagues to pass necessary legislation to protect their safety.

Additionally, at the last minute, provisions were inserted into the bill that regrettably denied some workers paid leave benefits. But millions of workers will have access to paid leave that is not available to them today.

So, I urge all Members to support the Families First Coronavirus Response Act.

Mr. DANNY K. DAVIS of Illinois. Mr. Speaker, I rise in strong support of the Families First Coronavirus Response Act which is designed to put families first, protect and stabilize our economy, and provide Americans with assurance that this House has their needs and interests at the top of our priority list.

I support this measure because during this period of uncertainty—it helps provide critical paid sick and family leave for workers affected by this public health crisis.

Approximately 80 million workers aged 16 and older are paid hourly, which means they typically lack paid sick and family leave.

Around 75 percent of workers live paycheck to paycheck.

These benefits will help cover employees who are sick, quarantined, or caring for loved ones who must remain at home.

If a worker is furloughed, laid off, or exhausted their paid leave, it provides enhanced unemployment benefits and flexibility in eligibility requirements to help.

The bill provides free testing to determine who is affected.

It provides substantial dollars to nutrition for low-income individuals—including pregnant women, mothers with young children, food banks, students receiving free and reduced lunch whose schools have closed, and seniors.

It safeguards Medicare benefits and payments, protects frontline health care workers, and directs special attention to the hardest hit communities.

I am pleased to support this bill because it is an important step by our country’s leaders to say to the American people that you will get your back. We are not done. This House will take further action when needed to help our residents weather this crisis.

Mr. WALDEN. Mr. Speaker, I rise today in support of the bill. The American people are rightly concerned about coronavirus, and as a Congress, we have a responsibility to help them deal with this crisis. Many Americans—sick or not—will need to stay home from work.

Many will need access to testing and care.

Our state and local health care providers and first responders are on the front lines of this fight. We’re all in this together. That’s how I’m thinking about it as a citizen—for my family—and as United States Congressman working for you, for Oregon, and for our nation.

Last week, we approved over $8 billion to get more tests out into our communities, reimburse local entities for the work they are doing, and to find a vaccine and treatments. We need to do more, and that’s what we will do today.

By working together, our efforts will leave our country better prepared to address this crisis. But I must note that more could have been done.

First, we all know hospitals across the nation are preparing to treat a surge of patients and health care providers are already running low on crucial respirator masks. We need to make more of these masks available to protect our health workers who are on the front lines of this pandemic.

By making common-sense changes to the PREP Act, we could boost the availability and supply of critically needed respirators. This is a missed opportunity for the American people who need these masks to keep pushing. We need to get these crucial pieces of protective equipment out to communities who need them most.

Second, our front-line needs reinforcements. We currently have provider shortages; to win this next stage of the fight we must maintain sufficient health staffing.

Dr. Burgess and Representative ESHOO have a bipartisan bill that would improve the “Ready Reserve” of the United States Public Health Service Commissioned Corps. The “Ready Reserve’s” purpose is to fulfill the need for additional personnel on short notice for public health and emergency response.

We must improve the surge capacity of our health care workforce. Why this was left out is maddening; it makes no sense.

Of course, we all know there will be more work to do in the coming weeks. We must get ready. We need to turn our attention to our medical product supply chain—both for this pandemic and future ones.

For me, this is not a new concern, prior to the coronavirus outbreak. I’ve raised concern about our country’s overreliance on foreign pharmaceutical manufacturing. If a country monopolizes the production of a drug and wishes to retaliate against the U.S., they could substantially increase drug prices or reduce supply in an attempt to cause shortages, limiting access to critical medications. This could put American lives at risk in a time of crisis.

Finally, I still believe the Medicaid policies in the bill could have been designed more effectively and better-targeted to the immediate challenge presented by COVID–19. With that said, states and localities are on the front lines and this enhanced funding will help states immediately address public health needs as well as handle an expected surge in new patients.

Even with these concerns, I do rise in support of the bill because we need to make sure people can get tested, help those who have to stay home from work and their families, and ensure our health professionals have the support they need from the federal government.

I urge my colleagues to support this bill. To the American people, our country is strong. Our economy is resilient. Do not panic but be smart and vigilant and we can overcome this challenge.

Ms. LEE of California. Mr. Speaker, I rise in strong support of the Families First Coronavirus Response Act.

I want to thank our Speaker for her remarkable and steady leadership, our entire leadership team, the committee chairs, and our Appropriations Chair, Nita Lowey who helped to craft this package.

We must boldly fight this pandemic with all the science-based tools and resources we have. And we must put families first.

The bill before us does exactly that by:

- Providing free coronavirus testing for everyone who needs it.
- Establishing an emergency paid leave program.
- Enhancing state unemployment benefits.
- Strengthening food assistance programs for seniors and school kids.
- Authorizing grants to states to support critical legislation to help address the needs of families across this nation facing the impact of this pandemic.

Lastly, I want to thank the Governor, State Officials, our Mayor, Local Officials, Port of Oakland, our workers, Federal Partners, and the many thousands who have helped to ensure that public health protocols were put in place to ensure the health and safety of everyone including the West Oakland community.

CONGRESSIONAL RECORD — HOUSE
The West Oakland community has been significantly challenged by environmental racism and injustice in the past. I am proud of the community's resilience and the compassion and competence and for stepping up during these challenging times.

Ms. OMAH. Mr. Speaker, as we respond to the Coronavirus pandemic, it's crucial that we don't forget the 22 million children who rely on free or reduced-priced school lunches.

For many kids, it is the only meal they get each day. It is our responsibility to ensure that kids continue to get the meals they need.

I urge my colleagues to vote yes on this bill and ensure that no child goes hungry due to school closures in times of crisis.

Ms. OMAH. Mr. Speaker, I rise to speak in strong support of H.R. 6201, the Families First Coronavirus Response Act of 2020, which provides much-needed protections for American families from the worst conditions that might arise as the nation fights the spread of COVID–19.

My thoughts and prayers are with the families who have lost loved ones and the thousands who are sick, and the many others who will struggle with the effects of COVID–19 over the coming days, weeks, and months.

We owe a special debt to First Responders and Dr. RAUL RUIZ for joining me as co-chairs and for stepping up during these challenging times.

Community-spread occurring is the reason why we need tests in enough supply that everyone can be tested so that we know the contagious score is 2.3.

Although symptoms are compared to the flu, COVID–19 is not the flu.

Because there's no immunity, vaccine, or widely agreed upon treatment there are only a few options for protecting the public and limiting its spread.

This is a time in our nation that historians will write about and anthropologists will study, but for us—living today—we are in a fight against a foe that we have never faced before, but we must defeat.

The army before us are our medical researchers, doctors, nurses, first responders, and sanitation workers, but they cannot defeat this enemy alone.

Each of us, not just in the United States but around the world must join the fight by paying attention to facts and not spread rumors.

The weapons for slowing the spread of COVID–19 are simple and they work:

- Washing hands
- Sanitizing surfaces
- Social Distance;
- Isolation; and
- Quarantines.

These tools for controlling the spread of infectious diseases are as old as civilization and are still used today because they work.

Some of the first records of the use of cleaning, washing, and isolation of the sick and those thought to be ill is found in the Bible in the Book of Leviticus Chapter 13. It provides detailed instructions to the community about leprosy, a dreaded contagious disease.

To defeat COVID–19, we must practice hand washing, social distance, isolation, and quarantine.

Hand washing sounds simple but it involves much more attention and time to do it right—and remove germs.

To get accurate information on what is needed to know visit https://coronavirus.gov, where information can be found on cleaning and personal care.

Social distance means limiting physical contact and having at least six feet separating persons while in public spaces.

Social distance practices can include not shaking hands, or touching surfaces where the virus can be picked up.

Social distance can also involve limiting the number of people who may be in an enclosed space.

Isolation for at least 14 days is for persons who may have been in contact with a person who tests positive for COVID–19.

Quarantine is for persons who are suspected of having COVID–19 or tested positive for having COVID–19.

Given the fluid nature of the events unfolding each person should be informed and ready to support efforts to prevent or slow the spread of the illness.

The National Institutes of Health, the CDC, university researchers, and private companies are working to produce a vaccine, which will take a year to produce in enough quantities to inoculate people from becoming infected with COVID–19.

In the meantime, we must do all that we can to protect the elderly; those with serious pre-existing health conditions, and our health care workers from contracting COVID–19.

I believe that we must do more to prepare the public for what may be localized, house-by-house or individual quarantines to address the spread of COVID–19.

We must vastly increase the number of tests and make sure that everyone presenting with mild cold or flu like symptoms is tested to accurately gauge the spread of COVID–19 in communities.

Reports and news reports in early January on the novel Coronavirus’s rapid spread and the numbers of infected expanding so quickly, I knew this was not something to be taken lightly and that time was not on our side to mount an effective defense.

On February 10, 2020, I held the first press conference on the issue of the novel coronavirus at Houston Intercontinental Airport.

I was joined by public health officials, local unions, and advocates to raise awareness regarding the virus and the implications it might have for travel to the United States from China and to combat early signs of discrimination targeting Asian businesses in the United States.

On February 24, 2020, I held a second press conference on the International Health Regulations Emergency Committee of the World Health Organization declaration of a "public health emergency from the outbreak of the Coronavirus."

At that time, I formally requested the President of the United States by letter to immediately suspend any health-related cuts that impact efforts to contain and treat the virus, including the $3.3 billion in cuts to the National Institutes of Health (NIH) and the discretionary budget cuts for the Centers for Disease Control and Prevention (CDC) of nearly 19 percent at $678 million, severely threatening the CDC's ability to respond to this and other epidemics in the future.

Additionally, I requested the President to suspend cuts in both the Medicare and Medicaid programs.

On February 26, 2020, I sent a letter to the Chair and Ranking Member of the Committee on Homeland Security seeking a meeting with Acting Secretary of Homeland Security Chad Wolf to gain insight into the Preparedness of the Agency to address a possible pandemic.

On February 28, 2020, I spoke on the Floor of the House and announced plans to form a Congressional Coronavirus Task Force.

I thank Congressmen BRIAN FITZPATRICK and Dr. RAUL RUIZ for joining me as co-chairs of the Congressional Coronavirus Task Force.

Today, March 13, 2020, the House of Representatives is offering additional tools to help the American public during this crisis, the second relief package in less than a week.

I want to impress upon the American people that if they have not been paying attention to the issue of the virus, they need to stop and learn all that they can.

First, do not panic—get informed with facts by visiting https://coronavirus.gov, this website is maintained by the Centers for Disease Control and Prevention (https://cdc.gov).

They must prepare for what is coming—if it has not officially arrived in their community—do not assume that it will not make its presence known.
The earlier bill provided $8.3 billion in funding in emergency supplemental appropriations, which included:

More than $3 billion for research and development of vaccines, therapeutics, and diagnostics;

$2.2 billion in public health funding for prevention, preparedness, and response, $950 million of which is to support state and local health agencies;

Nearly $1 billion for procurement of pharmaceuticals and medical supplies, to support healthcare preparedness and Community Health Centers, and to improve medical surge capacity;

$435 million to support health systems overseas to prevent, prepare, and respond to the coronavirus;

$300 million to respond to humanitarian needs.

$61 million to facilitate the development and review of medical countermeasures, devices, therapies, and vaccines, and to help mitigate potential supply chain interruptions; and

Allows for an estimated $7 billion in low-interest loans to affected small businesses.

On Thursday, March 12, the Centers for Disease Control and Prevention (CDC) reported the coronavirus outbreak has now infected more than 1,000 people in nearly 40 U.S. states—and the country’s top authority on infectious diseases reports that things will only get worse.

The World Health Organization reports a 3.4 percent mortality rate for COVID-19.

The challenge with this new coronavirus is that it is highly contagious, and of those infected, 15–20 percent contract pneumonia, which is a rapidly progressive disease occurring in critically ill patients.

The main complication in ARDS is that fluid leaks into the lungs making breathing difficult or impossible.

This virus is a serious public health threat, but this does not mean that we should have a public health panic.

There are knowledgeable and trained virologists, public health experts, and physicians who need the funding provided by this bill.

I ask that my colleagues join me in voting in support of H.R. 6201.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mrs. LOWRY) that the House suspend the rules and pass the bill, H.R. 6201, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. GRANGER. Mr. Speaker, on that notice will be provided.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

LEGISLATIVE PROGRAM

Mr. HOYER, Mr. Speaker, the House has now spoken in a clear voice and approved this bipartisan bill. If there are any developments that would require Members to return before our scheduled return date of March 23, 24 hours’ notice will be provided.

I want to thank all Members for their patience and efforts on both sides worked hard to negotiate the coronavirus response legislation the House has now adopted. Much remains to be done, but we have done good work last week on behalf of the American people and good work this week on behalf of the American people.

RANKING A MEMBER OF A CERTAIN COMMITTEE OF THE HOUSE OF REPRESENTATIVES

Ms. CHENEY, Mr. Speaker, by direction of the Republican Conference, I offer a privileged resolution and ask for its immediate consideration.
Mr. PAYNE. Mr. Speaker, I rise today to honor Ruby Ann Whittle Smith on the occasion of her 100th birthday. Ms. Smith has been a district resident for 95 years. She was born in South Hill, Virginia, on March 15, 1920, and moved to Orange, New Jersey, 5 years later.

Ms. Smith graduated from Orange High School and later the New York Institute of Dietetics. She started her career as a hospital dietitian and worked at Community Hospital in Newark, New Jersey, then she spent 30 years as a clerk at Western Electric. But she is known and loved for her passions: her dedication to New Hope Baptist Church in East Orange, her enjoyment of Denzel Washington movies, and her love of peppermints and bingo.

Happy birthday to Ruby Ann Whittle Smith. She is truly 100 years young.

NO WAY TO HANDLE BILLIONS OF DOLLARS

Mr. GOHMERT. Mr. Speaker, it is quite sad that something this important had this kind of procedure. Now, I got a bill at around 9 o’clock or so. I was told it was the most recent draft. I read through that, and I got through it in time to have a number of questions highlighted, tagged.

I wasn’t able—my staff was trying—to get a copy of the bill we were going to vote on. I got it right before the buzzer goes off that we are going to have a vote in 15 minutes.

This is no way to handle something so important. Part of my problem, my concerns and questions I couldn’t get answered: Is this going to put some people out of business? I get over here, answered: Is this going to put some people out of business? I get over here, and people hadn’t read it, so they can’t answer my questions.

This is no way to handle billions and billions of dollars when we are trying to help people, and we don’t even know whether we will help them or hurt them.

TOGETHER, OUR COUNTRY WILL SURVIVE CORONAVIRUS

Ms. UNDERWOOD asked and was given permission to address the House for 1 minute.

Ms. UNDERWOOD. Mr. Speaker, the hour is late, but I wanted to rise to speak to my constituents.

We are facing a novel illness in the coronavirus. I know that many are feeling nervous and uncertain with this type of disease, but I want to remind my community in northern Illinois that we have some tools at our disposal, commonsense solutions, like making sure to wash our hands and use hand sanitizer, to sanitize frequently touched surfaces, and to refrain from touching our faces. But we also need to make sure that we are extending common courtesies, kindness, and respect to our neighbors.

If you are feeling sick, stay home. If you are really feeling sick, please call ahead to your healthcare provider so that they can be ready to accommodate you. Together, our country will survive the coronavirus and make it through this challenging time.

VOTING TO SAVE LIVES

Ms. JACKSON LEE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON LEE. Mr. Speaker, as I stand before the words “In God We Trust,” tonight we took a vote to save the lives of our fellow Americans. I am very glad that what we did today was for families, healthcare worker protections, emergency paid leave, emergency unemployment insurance, paid sick days for public health emergencies, and personal and family care.

I will go home to my district and convene meetings regarding those who are dealing with education, healthcare, and testing, but the main thing that we must do is test every single American who is showing signs or needs.

What we have in this bill is to provide free testing. In addition, we have organized the bipartisan Congressional Coronavirus Task Force. We are doing that to engage with Members as they are away in their districts.

This is more contagious than the flu and more deadly.

Let us be assured that we take care of the American people. I intend to do so in my State of Texas and intend to make sure that resources go to save lives.

In God we trust.

CELEBRATING THE LIFE, LEGACY, AND MEMORY OF PATRICIA "TRISH" BERRY-BELL

HON. SUZAN K. DELBENE
OF WASHINGTON
IN THE HOUSE OF REPRESENTATIVES
Friday, March 13, 2020

Ms. DELBENE. Madam Speaker, I rise to recognize Patricia "Trish" Berry-Bell, a treasured friend and constituent, who passed away peacefully on January 19, 2020 after a courageous battle with glioblastoma. Trish was a retired registered nurse. She began her career at Northwestern Memorial Hospital in Chicago in the Neuro-Intensive Care Unit. After moving to Washington in 1983, she became a staple of our health care community. She first worked as an ICU nurse, then later in Recovery and Research, at the University of Washington Medical Center. Though she retired in 2016, she certainly did not remove herself from the health care world. Trish was a strong advocate for both nurses and patients during her career and after her retirement.

Trish was a jack-of-all-trades, receiving a degree in fashion design in addition to her degree in nursing. She exemplified the strong sense of community Washington is known for in so many aspects of her life, and any of us could count on her to be the first to step up if we needed help. Trish was loyal (a member of the same book club for twenty-seven years), loving, caring (my daughter’s godmother), and was known for her quick wit and sense of humor. Her favorite holiday was St. Patrick’s Day when we would gather at her mother’s house for a corned beef dinner. She was easy to recognize from her flaming red hair and her clear zest for life. I know her husband John, daughters Caitlin and Mavee, son-in-law John and all of us whose lives were better because we knew her will keep her memory alive. My family and I will miss her dearly.

HON. RICK ENGLER
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES
Friday, March 13, 2020

Mr. NORCROSS. Madam Speaker, I rise today to honor and commend Washington, District of Columbia resident, Mr. Rick Engler, for his retirement from the Chemical Safety Board.

In February of 2020, Mr. Rick Engler retired from his position on the Chemical Safety and Hazard Investigation Board, a position he held since President Barack Obama nominated him in January of 2014 and was confirmed by the United States Senate in December 2014.

Prior to his appointment to the United States Chemical Safety and Hazard Investigation Board, Mr. Engler spent more than four decades helping to prevent chemical hazards. Mr. Engler advocated for New Jersey Worker and Community Right to Know and Toxic Catastrophe laws that increased government transparency and the public’s “right to know” about potential chemical dangers they may have been exposed to on the job and in the community.

Moreover, he advocated for national 1990 Clean Air Act amendments which enabled workers and management representatives to fully participate during Environmental Protection Agency and Chemical Safety Board investigations of facilities that use highly hazardous chemicals. He also advocated for several state and federal public policies that promote hazard communication, workforce development, chemical incident prevention, inherently safer processes, and whistleblower protection.

Mr. Engler has consistently been a leader in collaborative labor-management-community initiatives to help investigate and prevent chemical incidents. Among Rick’s accomplishments and contributions during his tenure include his role as the Director of the New Jersey Work Environment Council, his founding of the Philadelphia Area Project on Occupational Safety and Health, his service as an elected Vice President of the New Jersey Industrial Union Council, AFL-CIO, as well as his service on the New Jersey Department of Health Occupational Health Surveillance Advisory Committee.

Madam Speaker, I ask you to join me in honoring Mr. Rick Engler, a dedicated public servant who has fought tirelessly for the safety of our communities and of all workers.

HON. MARK WALKER
OF NORTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES
Friday, March 13, 2020

Mr. WALKER. Madam Speaker, I rise today to congratulate Heaven Fitch on winning the wrestling state championship for North Carolina’s 106-pound weight class. Competing against all boys, Heaven’s win makes her the first female athlete in North Carolina to win a wrestling state championship.

She and her three brothers first became interested with wrestling at an early age after watching the sport on television. When Heaven and her brothers joined the local wrestling club, she was the only girl. Heaven wrestled wherever she could, often practicing up to five days a week. Despite being smaller than almost all her high school opponents, Heaven’s agility and speed has led her to dominate on the mat finishing the season with a 54–4 record. Heaven currently goes to Uwharrie Charter Academy in Asheboro, North Carolina, where she has gotten support from her classmates, teammates, coaches and parents Ryan and Stacey.

Each March, we come together to celebrate women who have broken barriers, defied stereotypes, and contributed to our country’s history. While we recognize trailblazing women over the course of history, it is our great honor to recognize women making history today in our backyards.

Congratulations to Heaven for all her accomplishments and serving as an inspiration to girls across the country.

IN HONOR OF THE SAN CARLOS CHICKEN’S BALL

HON. JACKIE SPEIER
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Friday, March 13, 2020

Ms. SPEIER. Madam Speaker, I rise today to recognize the 80th anniversary of a San Carlos school fundraiser known as the Chicken’s Ball. The name is taken from a tradition of San Francisco’s Barbary Coast when local music halls would hold an annual charity fundraiser. Chorus performers wore costumes with a lot of feathers, hence the name Chicken’s Ball.

The first ball in San Carlos was held in 1940 and it was organized by Howard J. Demeke, a teacher at Central School. The money benefited the PTA milk fund. Its stated purpose was to build the “unification of a lasting community fellowship.” Every two years since, shows have been produced, including this one in March of 2020.

Approximately 250 volunteers and business sponsors produce the ball every two years. It is an “all-consuming effort,” to quote a local historian, Linda Garvey, and may be the longest running PTA fundraiser in the country. The show features three melodramas and three variety skits based on people and events of the Barbary Coast era of 1890 to 1918. Since the 1940’s, more than 60 PTA and civic groups have contributed original skit ideas. Music is provided by the Poultry (Palty) Philharmonic.

Humor and the unexpected are a big part of the charm of the Chicken’s Ball. While skit writers often produce shows with great laughs, all too often the best moments come when the lines are forgotten and actors ad lib to get over an awkward moment.

Watching community members in novel parts is also fun. Children in the audience love seeing siblings and friends on stage, particularly if the part calls for a child to boss around an adult. A lot of the fun comes from the imaginative sets, all locally produced by skilled residents.

Performers range in age from 14–94. Singers, dancers, choreographers, designers, writers and stage crew are all volunteers and accepted regardless of talent. The theme of the 2020 Chicken’s Ball is “The Night They Invented Champagne.” The year’s show opens on March 13th and runs through March 22nd.

This is a chance for San Carlos, a small town with a great deal of talent and charm, to come together for several months of skill development, costume design, set construction,

HONORING THE RETIREMENT OF
HAMILTON COUNTY ENGINEER
TED HUBBARD

HON. BRAD R. WENSTRUP
OF OHIO
IN THE HOUSE OF REPRESENTATIVES
Friday, March 13, 2020

Mr. WENSTRUP. Madam Speaker, I rise to recognize Hamilton County Engineer Ted Hubbard for his 38 years of service at the county engineer’s office and congratulate him on his recent retirement.

Ted is a graduate of the University of Cincinnati who has committed his career to enhancing Southwest Ohio. He holds deeply the belief that honest public service is key to bettering civil society. Mr. Hubbard is right: our republic is built on the hard work and service of devoted men and women. Ted Hubbard is one such public servant.

Ted’s tenure at the Hamilton County engineer’s office was marked by a keen ability to forge relationships with the people, groups, and governments around him. Throughout his time at the office, whether as a design engineer, in permitting and construction, or as a deputy engineer, Ted had a positive impact on Hamilton County. Ted’s leadership on projects such as Colerain Ave, Montgomery Ave, Fields-Ertel Road, Winton Road, and the Cross County Highway will benefit our community for years to come.

I wish Ted the best as he moves on to a new chapter of his life and thank him for his service.

May God bless Ted and his family.

HONORING KERISA BAEDKE AS IOWAN OF THE WEEK

HON. CYNTHIA AXNE
OF IOWA
IN THE HOUSE OF REPRESENTATIVES
Friday, March 13, 2020

Mrs. AXNE. Madam Speaker, I rise today to ask the House of Representatives to join me in recognizing Kerisa Baedke, teacher and educator at Prairieview School in Waukee, as this week’s Iowan of the Week.

Kerisa is a foreign language teacher at Prairieview School in Waukee, Iowa. In her Spanish classes, she has built an immersive, vibrant environment in which her students feel comfortable and confident learning a new language. By combining a bright, colorful array of decorations with interactive lessons—taught almost entirely in Spanish—Kerisa brings a world of art, culture, and history to Prairieview School.

Kerisa has a passion for teaching foreign languages and promoting different cultural experiences in her classes. Her whole family speaks three or four languages, she says, and it’s where she first discovered love and passion for language. She also comes from a family of educators; her parents both dedicated themselves to teaching. Kerisa said she was born to be a teacher and couldn’t imagine doing anything else.

Prairieview School students look forward to Mrs. Baedke’s class each year, including her well-known projects like creative cultural dances or the “Día de los Muertos” shoebox. Kerisa has made a lasting impression on her students, cultivating a passion for language and for learning. In fact, it was one of her students that nominated her for the Iowa State Education Association’s Excellence in Education Award—and Kerisa won.

The accolades don’t stop there. I am proud to say that Kerisa was also awarded with the National Education Association’s Horace Mann Award. This prestigious national honor is awarded to only five teachers each year for their outstanding contributions to their students and to the teaching profession. Kerisa is the first ever teacher from Iowa to receive the Horace Mann Award, and I know the entire Prairieview School community is delighted by her achievement.

As a mom, I know that education is the single most important investment we can make in our children. I am proud to know that our children have teachers like Kerisa helping them learn and grow. It is her commitment to creating an engaging, nurturing, and most importantly exciting environment for students to learn that makes her a pillar of our community. It is my honor to celebrate Kerisa Baedke and recognize her as the Iowan of the Week.

HONORING THE LIFE OF DANIEL (DAN) DILL

HON. JARED HUFFMAN
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Friday, March 13, 2020

Mr. HUFFMAN. Madam Speaker, I rise today in memory of Daniel Dill, who passed away on September 17, 2019 at the age of 48 after a lifetime of public service to his community.

Born on June 11, 1971, to Danny and Grace Dill, Dan attended Fortuna High School, then studied wildlife management at Humboldt State University. After graduating, Dan worked for the Pacific Lumber Co., where he became a senior wildlife biologist in 1995. In 2008, he went to work as a wildlife biologist at Six Rivers National Forest, and he was named deputy district ranger for the Orleans/UKonoma Ranger District in 2012. He then became district ranger for the Mad River Ranger District in 2015. Dan also was a member of the Scotia and Fortuna volunteer fire departments, and the Scotia School Board.

Dan’s commitment to the U.S. Forest Service and the communities it serves was particularly apparent during the 2015 wildfires on Six Rivers National Forest where he displayed tremendous leadership. Recognized for being in tune with residents’ needs during and following the disasters to address critical forest fuels management and restoration projects in the area. Dan knew how to bring diverse groups of people together to bring these efforts to fruition. Even during trying times, Dan remained a cheerful and understanding individual focused on doing good work for the forest and the people who live in it.

Dan is survived by his wife Dawn, his daughters Emily and Ais, his parents Danny and Grace, and his brother Brett. His tremendous service to the country through his work in the U.S. Forest Service is a legacy that will improve the Six Rivers National Forest for generations to come. Madam Speaker, please join me in honoring Daniel Dill and his many important contributions to the communities of Northern California and the U.S. Forest Service.

Ambassador Bárcena is a distinguished career diplomat and noted for being the first woman appointed Ambassador of Mexico to the United States.

AMBASSADOR MARTHA BÁRCENA’S REMARKS AT MR. SOUTH TEXAS LUNCHEON

I am humbled and honored to receive this recognition that showcases the closeness of our ties at a very important time.

I want to thank the Washington’s Birthday Celebration Association and the International Bank of Commerce for putting together this great event.

I also want to thank Mayor of Laredo, Pete Saenz, the officials that work at the City of Laredo and the rest of the business community leaders and special guests that join us here today.

American writer James Baldwin used to say that “the past is all that makes us the present coherent’. Today, I believe that the present of Laredo and the U.S. cannot be understood without its shared history with Mexico.

Texas is close to us because its history is closely intertwined with Mexico and with Mexican and Latino immigrants in this country.

As the first female Ambassador of Mexico to the U.S., I have proudly repeated that the Latino community, and among them, the Mexican community are the past, the present and the future of this country.

In fact, my own personal story reflects the stories of millions that live on either side of the border but comprise one close-knit community. My grandmother’s ancestors arrived from Europe in the Mayflower and finally settled in Texas. They were what Emma Lazear brilliantly described as the “huddled masses yearning to breathe free”.

My great great grandfather, Leonard Pierce Jr., from Maine, served as President Lincoln’s Consul in Laredo where he cared for the Confederate territory refugees and enlisted Union sympathizers. His family...
finally settled in Laredo, where my grandfather, a French immigrant, married Rachel Pierce Cushman. My grandmother, Claire Jannet Pierce was born here in 1904. The family later moved to Mexico, but my uncle, Alma Allerton Pierce, stayed behind.

I can feel this sense of fellowship, supported by a bination, bilingual and bicultural community, that is so characteristic of Laredo.

Our border is one of the busiest and most frequently crossed international borders in the world, but it is seen more as a customs and immigration checkpoint.

When we talk about the border, we are also talking about us. We are talking about people that move, that invest, that shop and that socialize across the boundary line.

When we talk about the border we talk about ranchers, railroad builders, miners, investors and immigrants. We talk about thousands of people who cross the border every single day in both directions to work, conduct business, attend school or get medical treatment.

When I come to the border, I see an environment of opportunity defined by social and commercial exchanges, and of commons and cultural landscapes. I also see it as the symbol of our economic stature as a region. Together, the 19 Border States would constitute the world’s fourth largest economy.

Dear friends:

We are neighbors by geography, but partners and allies by choice. In less than a century, we transformed mistrust into a strong, collaborative and mutually beneficial relationship.

Our special partnership has made us grow together and prosper together. Today, the great state of Texas has witnessed firsthand the benefits of the close trade with Mexico, twenty-eight years after NAFTA was signed here in San Antonio.

Under NAFTA, exports from Texas to Mexico increased 389%, and imports increased 879%. In a striking comparison, Texas’ exports to Mexico are greater than all U.S. exports to Japan and India combined.

Mexico is Texas main trading partner, its first export destination and its number one source of imports.

Our bilateral trade rose to more than 100 billion dollars in 2019 and there are almost half a million Texans whose jobs depend on trade with Mexico.

Moving forward, we are confident that NAFTA successor, the US-Mexico-Canada Agreement, USMCA or TMEC, will be a strategic component for economic growth in North America and the ongoing creation of opportunities in cities like Laredo.

With the passing of USMCA, we accomplished three additional objectives:

1. We support North America’s competitiveness, with rules of origin that strengthen regional value chains.
2. We increase trade, and investments, and
3. To restore certainty and stability

Now is the time for implementation and as Laredo is the main port for bilateral trade, we have multiple challenges ahead, particularly in the area of infrastructure and personnel for the port, to be able to grasp the opportunities that lay ahead of us.

But when I talk about infrastructure is not only the ports of entry, it’s water sanitation, and it is also realizing that we share a common history, and it is also realizing how we are going to deal with the challenges that a border wall will bring to that environment.

We have shared this environment for centuries and that tradition can continue permanently. This is something that we have to reflect on, because above all, the wall will be a symbol that will separate us, while our rivers, our landscape and our bridges had united us.

Dear all, Mexico is well aware that all of the opportunities that stand before us cannot be fully seized, and will not be fully seized, without a careful consideration of the difficulties that lie ahead.

There is no silver bullet that will resolve all of our challenges overnight, but we are confident that we are moving in the right direction.

Today, the U.S.-Mexico relationship is at a crossroads, and the decisions that we take from now on will impact the direction of both our countries and the lives of millions of people.

We have sensitive pending issues like migration, where reality requires that we see it, not as a national security problem, but as a phenomenon that can allow us to establish a link between demographic profiles and labor markets.

We are convinced of the necessity of a continuous dialogue, especially on divisive issues, because as long as we remain neighbors, American and Mexican futures will be intertwined.

The role of cities like the two Laredos, its community and its values are key in this shared future. Thank you very much.

BIRTHDAY WISHES TO ROBERT E. HILL
HON. MICHAEL GUEST
OF MISSISSIPPI
IN THE HOUSE OF REPRESENTATIVES
Friday, March 13, 2020

Mr. GUEST. Madam Speaker, I would like to wish Mr. Robert E. Hill a happy 100th birth-

Mr. BLUMENAUER. Madam Speaker, Amo Houghton was a dear friend and for many of us, probably the most respected member of Congress from either party. He was thoughtful, positive and constructive. When Congress was bipolarized during the New Gargen era, it seems almost quaint now, Amo stepped up to bring us together. He was always the voice for civility, thoughtful policy and bipartisanship before that became merely a talking point.

Amo was a modest, quiet, unassuming gentle man who would never know that he was the only fortune 500 CEO to ever serve in Congress, coming from a distinguished family long successful in business, politics and philanthropy. Yet, he was unpretentious. He cared about good policy and more important than the institution, he cared about the people . . . members and staff.

He was a thoughtful conservative who voted against gimmicks like a balanced-budget amendment despite its popularity with his Republican colleagues. He was against the Iraq war when it had overwhelming support from his own party. He was against the Bush administration and fellow Republicans, but the majority of the American public.

Amo was ahead of his time in so many ways.

He was deeply concerned about the human dynamic. He didn’t just care about “people.” He cared about you. He was a strong supporter of the “Faith and Politics” program and efforts at racial reconciliation. His was a unique voice. His positions would be almost unimaginable in today’s Congress, but anyone who knew Amo would respect him and more than a few would quietly agree with him.

When I was first elected, I luckily moved into an office next to Amo’s. He helped this former freshman member in innumerable ways. His wife Priscilla was herself an amazing person: strong, thoughtful, unpretentious, and civil. She was a dedicated bike rider and was cremated in her favorite dress, wearing a bike pin as did all the ushers at the funeral.

Amo was a consistent voice for people in Congress to do the right thing. He and Priscilla touched many of our lives and made us better people. His participation and example can, and should, live on in this Congress and beyond. His friends, family, neighbors, colleagues, and admirers share a profound sense
of loss in the wake of his passing. But we are all better people for having known him and the influence he had on our lives.

CELEBRATING THE 33RD ANNIVERSARY OF THE JAMES TATUM FOUNDATION

HON. RASHIDA TLAIB
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Friday, March 13, 2020

Ms. TLAIB. Madam Speaker, I rise today in tribute to the James Tatum Foundation for the Arts on the occasion of its thirty third anniversary.

The James Tatum Foundation for The Arts was founded in 1987 by a coalition of concerned educators and civic leaders who recognized vast numbers of artistically talented young people in the Metropolitan Detroit area and the lack of opportunities to nurture that talent. Since then, the James Tatum Foundation, under the leadership of James Tatum, a world-renowned jazz musician and educator, has carried out its mission to provide opportunities to young artists to develop and display their talents. Furthermore, through its Youth Scholarship Program, the Foundation works to award young people with financial assistance to help attain performing arts studies beyond high school.

Over the years, the James Tatum Foundation has blossomed into one of Detroit’s most distinguished nonprofit organizations, nurturing students with diverse talents by providing scholarships, mentoring and exposure. The Foundation has awarded hundreds of thousands of dollars in performing arts scholarships to graduating seniors who are advancing to some of the most prestigious colleges and universities, including Juilliard School of Music, New England Conservatory of Music, Curtis Music Institute, Yale University, Oberlin Music School, and the University of Michigan School of Music.

Please join me in celebrating the thirty third anniversary of the James Tatum Foundation for the Performing Arts and the countless young people who have been able to pursue their dreams in the performing arts.

RECOGNIZING THE LIFE OF MRS. VERLIA HOGGARD

HON. STEVEN HORSFORD
OF NEVADA
IN THE HOUSE OF REPRESENTATIVES
Friday, March 13, 2020

Mr. HORSFORD. Madam Speaker, I ask that this body recognize the life of Mrs. Verlia Hoggard, who recently passed away.

Ms. Hoggard dedicated her life to serving Las Vegas, and her consistent work to better the lives of those around her made her a fixture in our community.

As the former Director of Clark County Social Services, she dedicated her career to social work, including spending 32 years as the Director of the First African Methodist Episcopal Church, Board and Hospitality Committee.

Whereas most people may become bogged down after such a long career in social work—a notoriously tiring profession that asks so much of those in it—Ms. Hoggard remained focused on those she served, demonstrating her steadfast commitment and boundless dedication to her community.

Additionally, she was active in many local, county, and state governments, as well as organizations including the NAACP, Clark County Library Board, Women’s Democratic Club, the Links, Incorporated, and the Alpha Kappa Alpha Sorority.

Even after her official work ended with her retirement in 2003, her involvement did not. She continued her longtime participation in various organizations, served on the Steward Board and Hospitality Committee.

She also remained an active member of the First African Methodist Episcopal Church, serving her community through it as well. Beyond her work as a public official, Ms. Hoggard was known for her kind spirit, her selflessness, and her fortitude. Put simply, it was a privilege to know her.

Las Vegas is lucky to have been the place that Ms. Hoggard called home and to have benefitted tremendously from her years of service.

I am proud of the work my dear friend accomplished and honored to continue her legacy of service—pushing forward with her contributions alongside my colleagues in the Nevada delegation here in the House of Representatives, as well as those serving in the state and local governments back home.

FEDERALLY REQUIRING EARNED EDUCATION-DEBT DISCHARGES FOR VETS ACT

SPEECH OF
HON. SUSIE LEE
OF NEVADA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, March 10, 2020

Mrs. LEE of Nevada. Mr. Speaker, I would like to correct the Record. Earlier in my remarks, I stated that the Department of Education’s automated loan discharge for these loans had been stalled. While they were stalled for three months, the department has resumed forgiving hundreds of millions of dollars in student loans owed by veterans with severe disabilities. This bill will require the Secretary to continue matching borrowers with data from Veterans Affairs to identify and automate discharge for matched individuals, eliminating burden on our veterans.

WOMEN’S HISTORY MONTH

HON. SUSAN A. DAVIS
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Friday, March 13, 2020

Mrs. DAVIS of California. Madam Speaker, I rise today to commemorate Women’s History Month—and specifically, this year’s Women’s History Month.

In 2020, we celebrate 100 years since the passage of the 19th Amendment and the beginning of women’s suffrage. This is also the year in which 38 states finally ratified the Equal Rights Amendment and we held a vote on the House floor to extend the deadline for passage.

These historic milestones remind us of how hard women have worked and fought in the streets, in the courts, and in political office for the rights we have today.

But even as we celebrate the role of courageous trailblazers, we remember, too, the hidden figures whose contributions are not in our history books. I think about the knowledge we cannot pass down, and about the women we will never know because their history was not recorded.

We’ve made gains in the home, in the workplace, in military service, across civil and reproductive rights, and as global leaders.

Despite that, we know that there are many places where young girls do not see what they can be—shattering elusive glass ceilings will change that.
