## ORDER OF COURT

Entered: January 6, 2021

Appellants' Unopposed Motion for a Stay is resolved as follows: the request for a stay is granted pending the Supreme Court's decision whether to grant the petitions for writ of certiorari in Azar v. Mayor of Baltimore, No. 20-454 and AMA v. Azar, No. 20-429. We note that these petitions are currently scheduled for the conference of January 8, 2021. Should one or both petitions be granted, appellants may renew their request for a stay pending the Court's ruling on the case(s). If the matters are held over, the stay will remain in place pending a ruling on the certiorari petitions. If neither petition is granted, the parties shall propose a revised briefing schedule for this appeal.
